REPORT ON PROGRAM DELETIONS Academic Year 2009-2010

This report provides summary and detailed information about program deletions during Academic Year 2010 (2009-10).

Attachment 5-1 summarizes the number of program deletions for the academic year by level of program and by level of institution for the last four academic years. Two hundred and fifty-one (251) programs were deleted in 2009-10 as compared to 37 deletions in AY2009, 42 deletions in AY2008, and 38 deletions in AY2007.

The following graph illustrates that academic program deletions occur at both the 4-year universities and the 2-year colleges.

The vast majority of academic program deletions occur at the undergraduate level. For AY2010, almost eighty-four percent (83.7%) of program deletions occur at the undergraduate level whereas approximately sixteen percent (16.3%) occur at the graduate level.

Arkansas Higher Education Coordinating Board

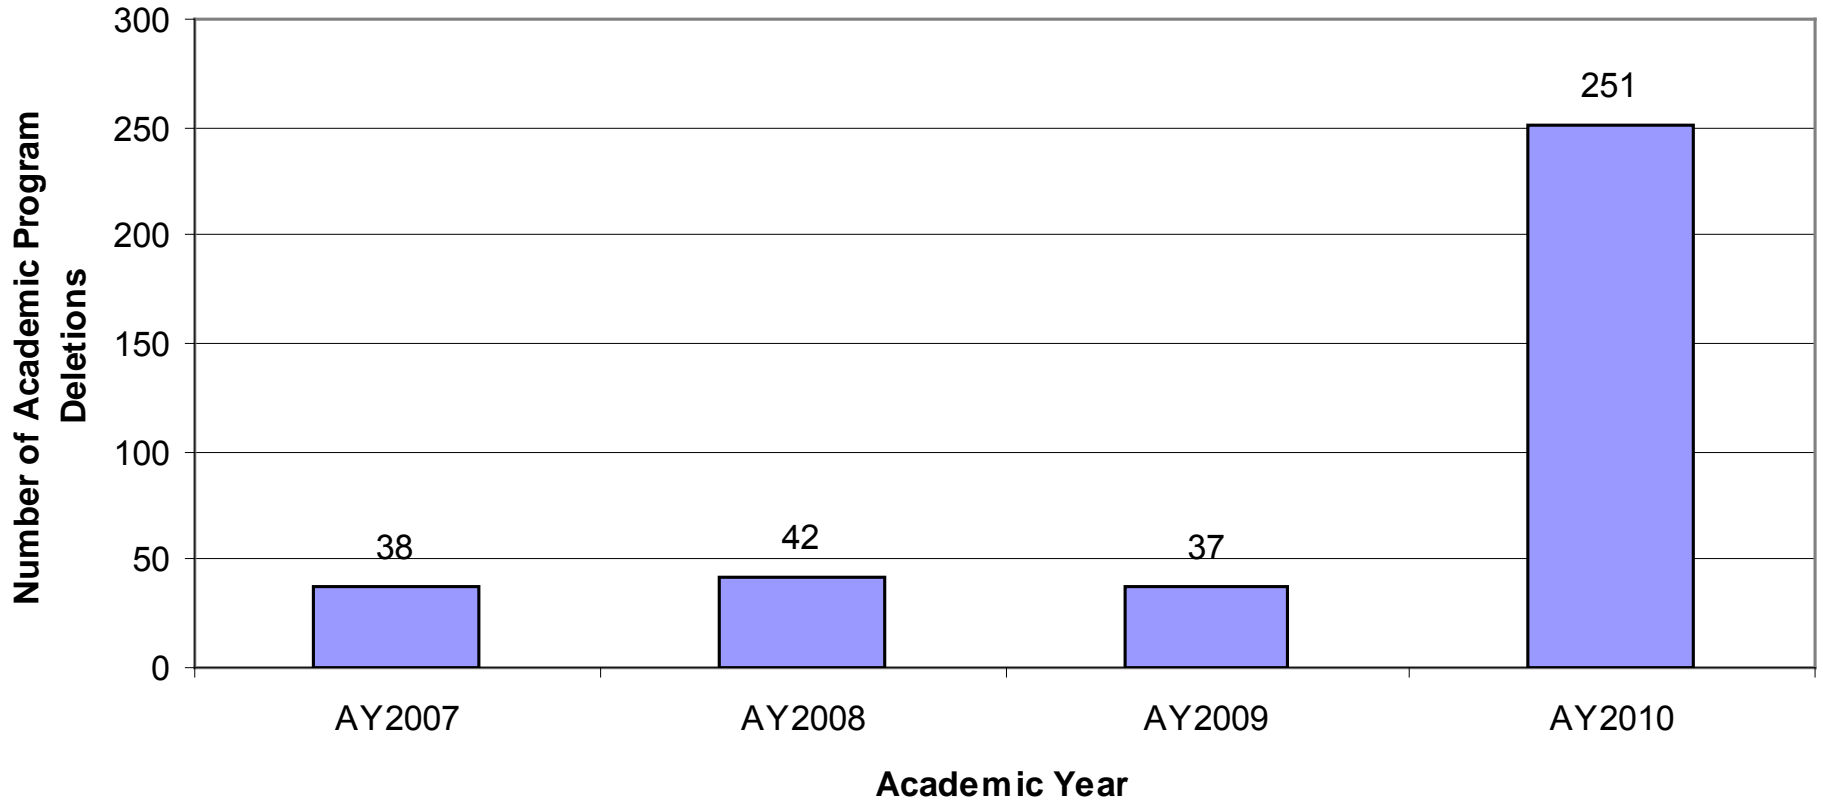

Agenda Item #5 Annual Report on Program Deletions October 29, 2010

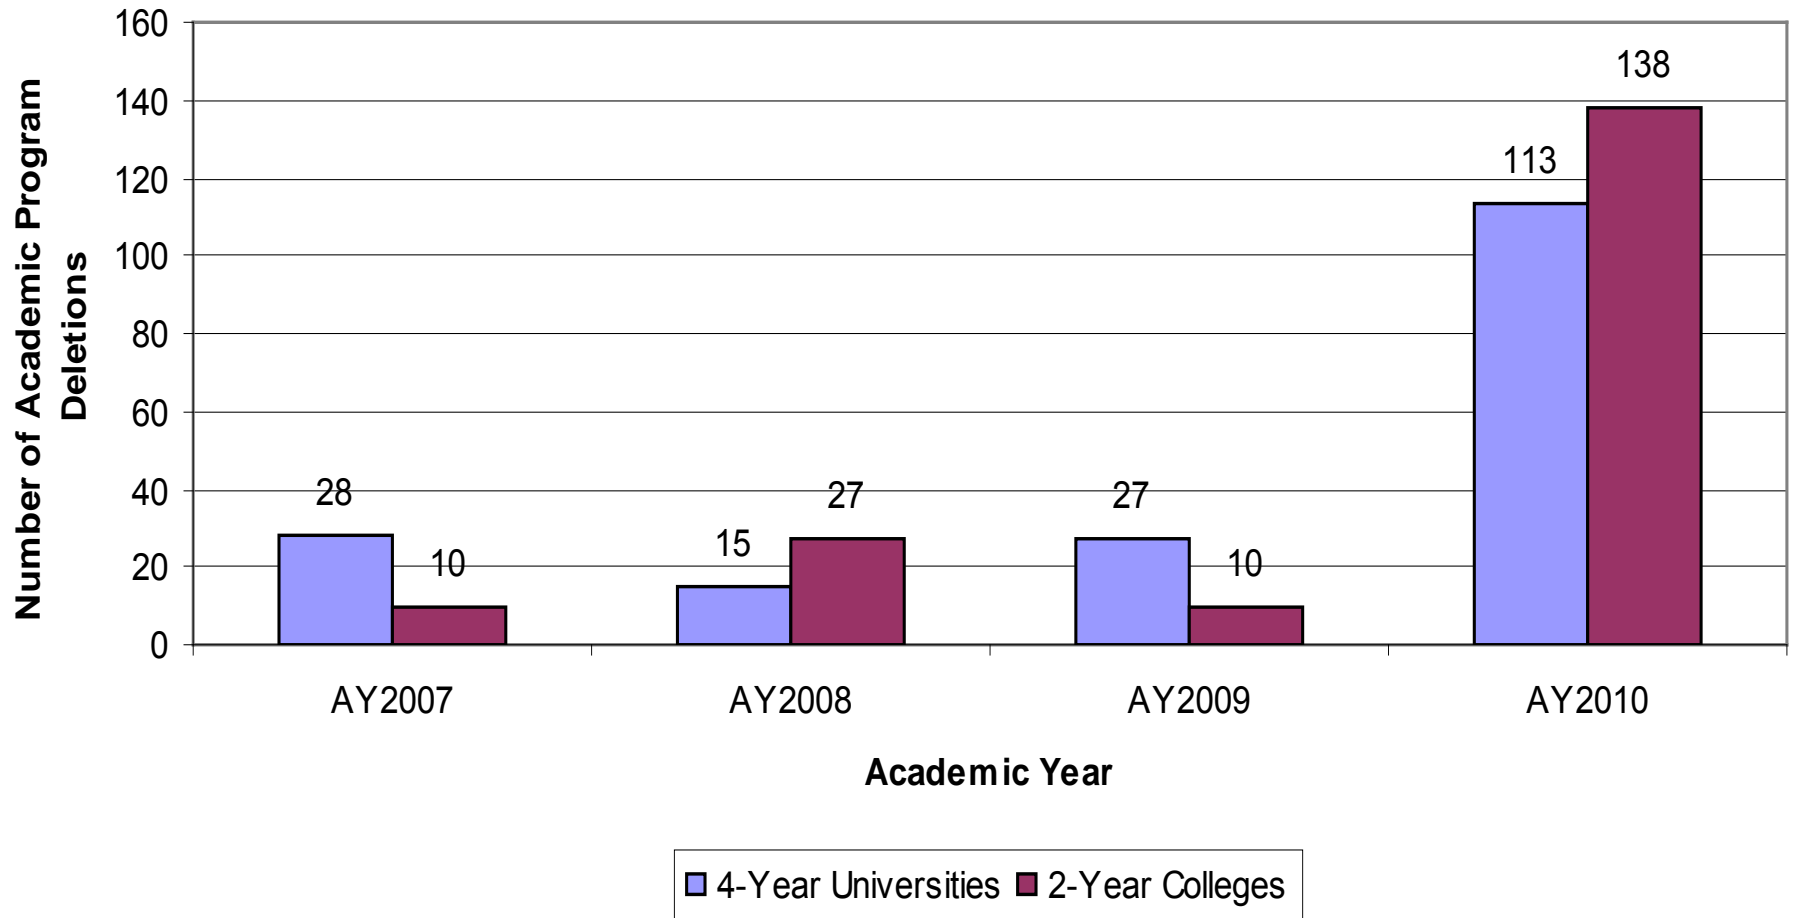

Rick Jenkins

Associate Director for Planning and Accountability

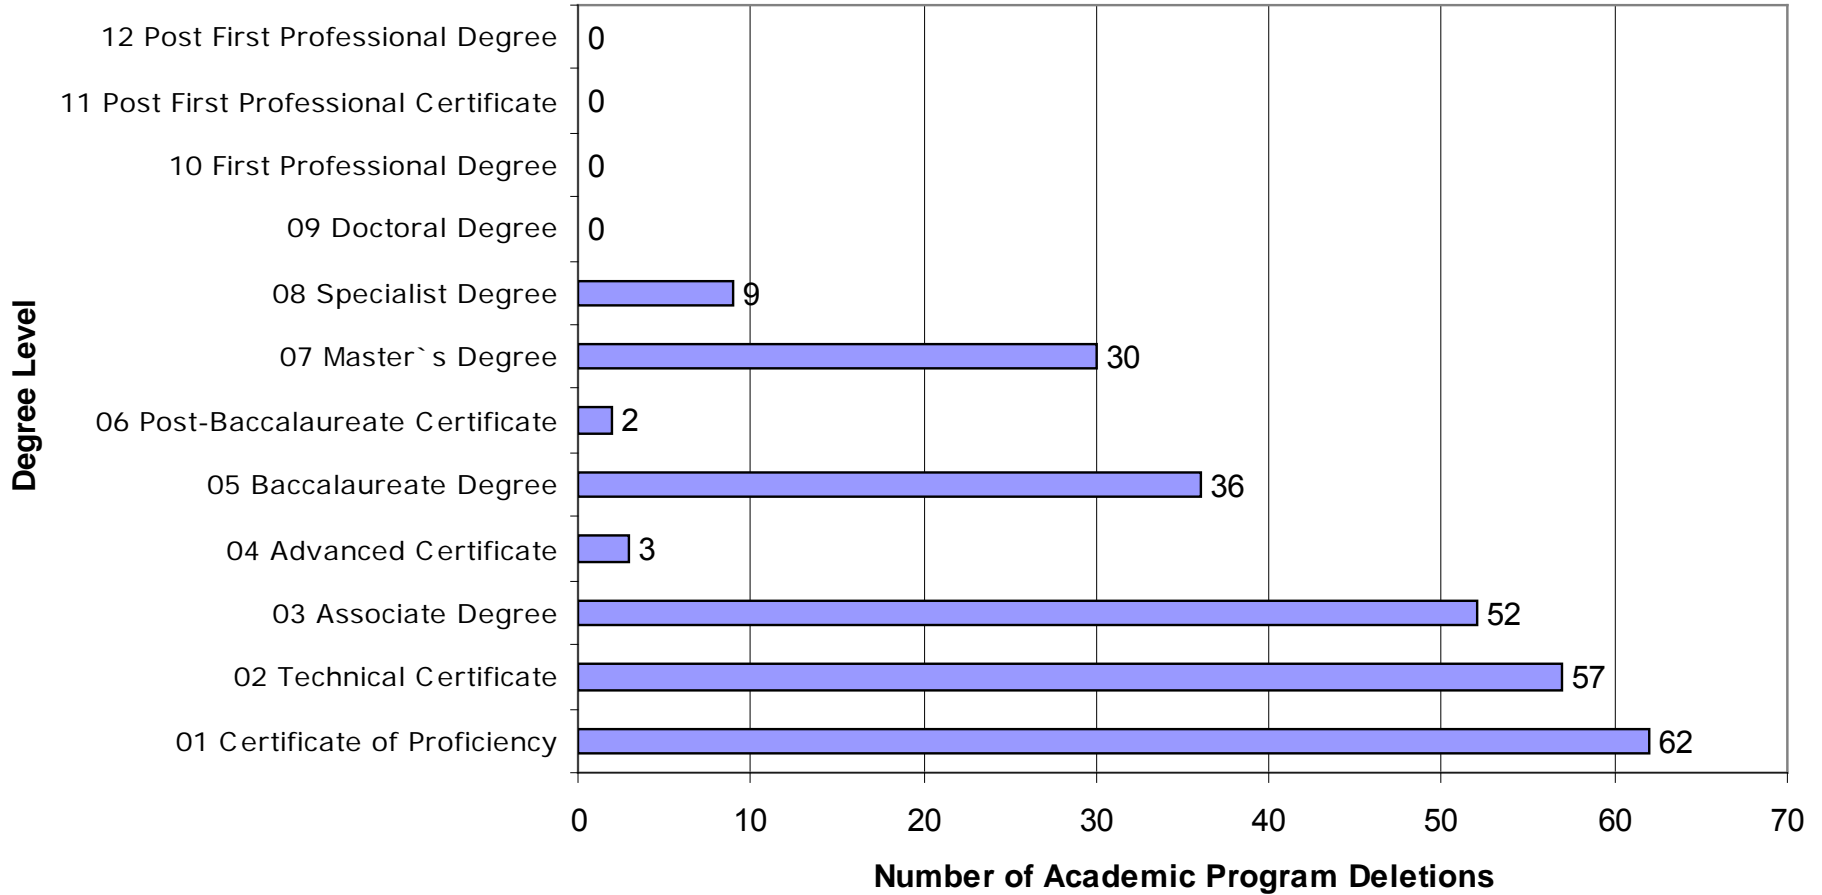

Academic Program Deletions

Academic Program Deletions by Institution Type

Academic Program Deletions by Degree Level, AY2010

Program Viability/Productivity Standards

- OLD STANDARD – (1989)
 - average of 3 graduates per year over five years for undergraduate programs,
 - 2 graduates per year for master’s programs, and
 - 1 graduate per year for doctoral programs.
- NEW STANDARD - Beginning in 2010, the viability standards, based on a three-year average, are as follows:
 - average of **four (4) graduates** per year for career and technical education certificates (CTE) and career and technical associate degree programs (AAS);
 - average of **four (4) graduates** per year for bachelor’s degrees in science, mathematics, engineering, foreign languages, middle school education, and secondary education programs for licensure in science and mathematics;
 - average of **six (6) graduates** per year for transfer associate degrees (AA, AS, and AAT) and bachelor’s programs;
 - average of **four (4) graduates** per year for master’s, specialist and first-professional programs; and,
 - average of **two (2) graduates** per year for doctoral programs.

Cause of Increase in Number of Program Deletions

- Programs did not meet AHECB standards, i.e., AHECB policy is working
- Re-organization (clean-up) and updating of programs
- Market/Employer demand – employer desires are most prevalent at lower degree levels – (Certificate of Proficiency, Technical Certificates, and Associate degrees)
