

Comprehensive Arkansas Higher Education Annual Report

December 1, 2011

Remediation Rates

Arkansas Department of Higher Education

114 East Capitol, Little Rock, Arkansas 72201

There are two (2) separate reports on remediation included:

1. The Annual Remediation Report to the Arkansas Higher Education Coordinating Board (AHECB) presented Feb. 4, 2011; and
2. Supplemental Remediation Reports presented to the Arkansas Higher Education Coordinating Board (AHECB) on July 29.

The contents of each report are detailed as follows.

Since 1988, all entering first-year students seeking an associate degree or higher from an Arkansas public college or university must meet AHECB assessment and placement standards in the disciplines of English, mathematics, and reading.

A cut-off subscore of 19 on the ACT exam (or the equivalent on the ASSET, SAT, or COMPASS tests) is used for each of the three areas. Attachments 7-1 and 7-2 offer a general overview of remediation in Arkansas public higher education, while Attachments 7-3, 7-4, and 7-5 provide institutional detail by discipline for the terms of 2008 Fall through 2010 Fall. In all tables, remedial data are based on students who meet two criteria: (1) not meeting the board's cut-off score; and (2) being assigned to developmental-level coursework.

Traditionally, ADHE has calculated remediation rates for any and all first-time entering students. However, the legislature passed Act 970 in 2009 which required remediation rates to be calculated on students that had graduated high school within the past two years prior to entering college and the legislature conducted an interim study proposal during 2010 in which ADHE was requested to calculate remediation rates on students that had graduated high school in the previous 12 months. Therefore, ADHE is publishing remediation calculations

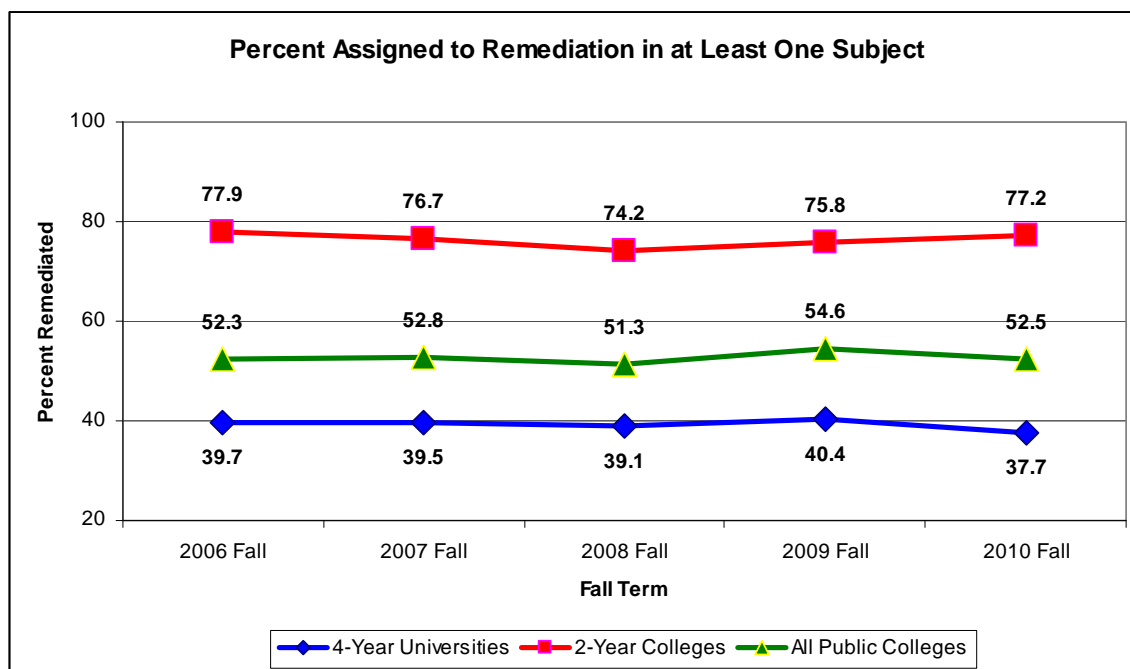

using three slightly different methodologies:

1. Anytime Rates – rates in which the high school graduation date is ignored
2. 2-Year Rates – rates in which the student graduating high school in the previous 2 years
3. 1-Year Rates – rates in which the student graduating high school in the previous 1 year

Statewide Overview

In fall 2010, Arkansas's public institutions enrolled 22,479 first-time degree-seeking students. 22,342 of those students were tested for placement purposes.

- Of the 22,342 students who were tested, 11,719 students (52.5 percent) were assigned to one or more remedial courses while the balance of 10,623 students (47.5 percent) were placed in college-level coursework (Table 6-1). This represents a decrease in the remediation rate of 2.1 percentage points from fall 2009.

- Of the 11,837 students assigned to remediation, 5,268 (45.0 percent) were in the four-year sector and 6,451 (55.0 percent) were in the two-year sector.
- Over the last five years, the number of students assigned to remedial coursework has increased by 243 students (4.8 percent) at four-year institutions. However, the number of students assigned to remediation has increased by 1,561 students (31.9 percent) at two-year institutions and by 1,804 students (18.2 percent) at all public institutions.

Remediation Rates by Subject Area

- From last year, the remediation rate for all three subject areas have decreased: for mathematics (Attachment 7-3) the decrease was 3.8 percentage points; for English (Attachment 7-4) the decrease was 1.1 percentage points; and for reading (Attachment 7-5) the decrease was 1.1 percentage points.

The following table illustrates that the number of students requiring remediation in one subject area only (35.1 percent) is almost the same as the number of students requiring remediation in all three subject areas (34.6 percent).

- 4,108 of the students assigned to remediation (35.1 percent) were placed at the developmental level in only one subject area (i.e., mathematics, English, or reading). Of those assigned to remediation in only one subject area, the subject of mathematics had the highest remediation rate (75.2 percent), followed by English (13.2 percent) and reading (11.6 percent). 3,559 of the total students remediated (30.4 percent) were placed at the developmental level in two subject areas. In addition, 4,052 (34.6 percent) of the total students remediated were placed at the developmental level in all three subjects.
- Among 4-year universities, of students assigned to remediation, 42.0 percent were assigned to remediation in only one subject, 28.0 percent were assigned to remediation in two subjects, and 30.0 percent were assigned to remediation in all three subjects.
- Among 2-year colleges, of students assigned to remediation, 29.4 percent were assigned to remediation in only one subject, 32.3 percent were assigned to remediation in two subject areas, and 38.3 percent were assigned to remediation in all three subject areas.

Remediation Rates by Demographics

- Gender: As the graph below illustrates, remediation rates for females are only slightly higher than that of males.

- **Race/Ethnicity:** Regarding remediation rates by race and ethnicity, students of White races have the lowest remediation rates followed by Asian, American Indian/Alaskan Natives, Hispanic, Hawaiian and Pacific Islanders, and Black. (Note that the race/ethnicities are actually defined as Asian Only, Black Only, Hispanic Any, American Indian and Alaskan Natives Only, White Only, and Hawaiian Only.)

- **Age:** Students in age groups 20 and above have substantially higher remediation rates than the younger age groups.

- Attend Status: Full-time students have substantially lower remediation rates than part-time students.

Anytime Rates as Compared with 2-Year Rates and 1-Year Rates

As mentioned previously, due to legislative input ADHE is including data on three different types of remediation rates:

1. Anytime Rates – rates in which the high school graduation date is ignored
2. 2-Year Rates – rates in which the student graduated high school in the previous 2 years
3. 1-Year Rates – rates in which the student graduated high school in the

previous 1 year

As noted above in the section on remediation rates by age, the longer the time period that a student has been out of high school, the greater the chance the student needs to be remediated. This situation is true for both the 4-Year Universities and the 2-Year Colleges.

Attachment 4-A	Remediation Attempts for Academic Years 2009 and 2010
Attachment 4-B	Remediation Attempts Students that Pass for Academic Years 2009 and 2010
Attachment 4-C	Remediation Rates for Students Graduating High School with 3.00 GPA or Higher for 2009 Fall Term and 2010 Fall Term

Act 970 of 2009 requires the Arkansas Department of Higher Education to prepare reports on:

1. *“Students who required remediation and who graduated... with a 3.0 or higher grade point average on a 4.0 scale...”*
2. The number of *“Attempts it takes a student to pass a postsecondary remedial course, beginning in the 2011-2012 school year.”*

The remediation report presented in February 2011 did not include the above reports – they are being presented at this time. These reports will be included in future remediation reports presented at the Winter AHECB meeting.

Remediation Attempts

The following chart and Attachment 4-A shows that approximately 15 percent of students attempt a remediation course two or more times.

Note that the above percentages due not balance to 100 percent due to rounding.

Remediation Attempts for Students that Pass

The following chart and its associated attachment shows that even for students that pass a remedial course, approximately 14-17 percent must take the course two or more times to be successful.

Remediation Rates for Students Graduating High School with 3.00 GPA or Higher

The following chart and its associated attachment illustrates that high school students with relatively good high school GPA's experience remediation when entering college.

Remediation Attempts

Number of Times the Same Student was Enrolled in the Same Remedial Course during a 5-Year Period

Academic Year = **2009** for students enrolled in AY2005 - AY2009.

NOTE: This does not take into account whether or not the students passed the remedial course, but is only the number of times the course was taken.
