**RECOMMENDATIONS FOR EDUCATIONAL AND GENERAL OPERATIONS
STATE-SUPPORTED INSTITUTIONS OF HIGHER EDUCATION
FISCAL YEAR 2014-15**

Background

A.C.A. §6-61-224 establishes the process and key components for formula development for funding public institutions of higher education. That language reads as follows:

“(a) The Arkansas Department of Higher Education, in collaboration with the state college and university presidents and chancellors, shall develop funding formulas consisting of a needs-based component and an outcome-centered component which will, in principle, seek to provide fair and equitable state support to all postsecondary students across the state, regardless of the state institution attended, while at the same time recognizing: (1) The different needs for lower level, upper level, and graduate level instruction at the various institutions; (2) The requirements for specialized equipment, labs and smaller class sizes in some disciplines; and (3) Unique missions, such as agricultural extension services, research, medical sciences, workforce development, and public service; and (4) Growth, economies of scale, and other appropriate factors.”

At its April 27, 2012 meeting, the Arkansas Higher Education Coordinating Board approved the funding models for the two-year colleges, universities, and the technical centers (former technical institutes merged with universities). These models had been developed in conjunction with presidents and chancellors after meetings and revisions. The funding models were used to develop the comparative needs of Arkansas institutions of higher education in terms of the average funding levels of schools in the SREB region.

ADHE staff also reviewed new justification requests submitted by the non-formula group and prepared funding recommendations for Fiscal Year 2014-15 based upon those requests.

The difference between the funding model determined needs of the entities compared to the Fiscal 2014 appropriations was \$256.4 million. The funding gap (the difference between the formula determined need and the current fiscal year appropriation) is part of a phenomenon that occurs when there is an extended economic downturn which is invariably

accompanied by enrollment increases, declining state support and tuition increases (to replace a part of the lost state support). It should be emphasized that the funding needs of the institutions are the funds needed to bring Arkansas higher education to the **average** funding level of the SREB region. The funding gap took a number of years to reach its current level and may never be completely erased.

Operating Funding Recommendations for the 2014-15 Fiscal Year

The operating needs are based upon the tuition policies established by the Arkansas Higher Education Coordinating Board's approval of Agenda Item 14 on April 27, 2012 and the funding formulas approved by the AHECB in April 2012. Following the April meeting, staff determined a Higher Education Price Index (HEPI) adjustment was not included for the Student Services Component and also an adjustment was needed for additional space generated by the space needs model in the two-year model. The recommended changes are below.

- Student Services: Student Services is calculated based on a variable rate per student using the mean of FTE students and headcount. The rates are \$757 each for the first 750 students, \$537 each for the next 2,250 students, \$333 each for the remaining students above 3,000.
- Funding rates for Physical Plant are based on actual Educational & General (E&G) square feet as reported in the 2012 Facilities Audit Program (FAP) compared to the model-determined need. When the actual E&G square footage exceeds the model determined space need by more than one hundred and fifty (150) percent, a rate of \$2.40 per square foot for any excess square footage will be applied. If the model determined need exceeds the actual E&G square feet, then \$5.40 per square foot will be applied to the actual square footage and \$2.40 per square foot for the additional space needed.

Each funding formula was developed to provide an equitable basis for the distribution of **any funding available**.

The funding models have been updated with academic year 2013 student semester credit hours (SSCH). The input data for the funding models were the SSCH by level and discipline as reported in the Student Information System for academic year 2013 and the educational and general square footage as reported in the Facilities Audit Program (FAP) 2012. The updated formula driven models represent a total need for funding of higher education institutions of \$871,785,503. The total funding recommendation for the non-formulas entities is \$275,873,726 in 2014-15.

Since it is not anticipated that the models will be fully funded in the near future, funding recommendations for 2014-15 are: For the **four-year institutions**, a 1.7% increase for all institutions based on the Higher Education Price Index (HEPI) which totals \$6.1 million and further recommending that those institutions below 75% of the model be brought to that level which is an additional \$42.5 million for a total four-year recommendation of \$48.6 million in new revenue.

For the **two-year institutions** the priority is to bring those institutions below 75% of the model before giving an increase based on the HEPI index. To bring those institutions below 75% to that level would require \$16.1 million. To provide a 1.7% increase on the HEPI index would require an additional \$ 2.2 million for a total two-year recommendation of \$18.2 million in new revenue.

For the **technical centers** the recommendation is for a 1.7% increase based on the HEPI index which is \$89,638 and an adjustment to bring those below 75% of the model to 75% which would require an additional \$2.5 million, for a total recommendation of \$2.6 million in new revenue.

For the **non-formula entities** the recommendation is for a 1.7% increase based on the HEPI index which is \$4.6 million and a recommendation of full funding which would require an additional \$59.2 million, of which \$45.9 million would be for the University of Arkansas for Medical Sciences (UAMS).

The allocation of funds generated by the increases in RSA funding between colleges, universities and technical institutes is based upon each group's share of the need for new funds.

The individual institutional recommendations for all four types of institutions (Colleges, Universities, Non-Formula Entities, and Technical Institutes) were determined in the following manner: The general revenue funds were distributed based upon the need for new funds as determined by the three funding formulas and the ADHE staff determined need of the non-formula entities. The non-formula needs were based up the justifications submitted by the institutions. **The total recommendation for 2014-15 for Colleges, Universities, Non-Formula Entities and Technical Centers is \$133 million in new revenue.**

It should be noted that it is unlikely that these recommendations will keep pace with the combination of inflation and enrollment increases for most institutions. However, given the economic uncertainty, there is an even greater uncertainty than usual that even these modest recommendations will be funded.

The principles for determining operating needs address continued levels of base funding for institutions, equity, small college adjustment, and economies of scale. Specific aspects of the operating recommendations for all institutions follow:

1. All of the general revenue increases recommended were distributed on the basis of the funding formula or staff determined need for new funding.

Table 1: DEFINITIONS OF EXPENDITURE CATEGORIES

Academic Support. This category includes funds expended primarily to provide support for an institution's primary mission--teaching, research, and public service. Academic support is comprised of the following sub-categories:

Libraries. Includes salaries and operating expenses of separately organized libraries and media centers that are the responsibility of the librarian.

Museums and Galleries. Includes expenditures for activities that provide for the collection, preservation, and exhibition of historical materials, art objects, scientific displays, etc.

Organized Activities Related to Educational Departments. Includes expenditures for activities that provide support services to the three primary programs: teaching, research, and public service. These activities usually provide an opportunity for students to gain practical experience. Examples of organized activities are campus radio stations or farms.

Other Academic Support. Includes educational media services, academic computing, academic administration (deans and their support costs), and faculty development.

Equipment Replacement. Funds are provided for the replacement of worn or obsolete equipment. This is not an expenditure category in accounting terms since the expenditures will occur in other categories where equipment is used.

Institutional Support. This category includes administrative costs for institutional management such as the president's office, fiscal and personnel management, chief academic and student service officers, administrative computing, and other central institutional services that cannot be allocated to a specific department or activity.

Instruction. This category includes expenditures for all activities that are part of an institution's instructional program. Expenditures for credit and non-credit courses, for academic, vocational, and technical instruction, for remedial and tutorial instruction, and for any regular, special, and extension sessions are included. This category includes the following sub-categories:

Teaching Salaries. Includes only that portion of faculty salaries devoted to the teaching of credit-equivalency courses.

Departmental Operating Expenses. Includes salaries, wages, equipment, and operating expenses of instructional departments exclusive of teaching salaries.

Off-Campus Credit. Includes all credit courses offered anywhere other than in the facilities or on the grounds of a four-year institution, branch campus, or technical college. Included are expenditures for community college courses offered anywhere outside the district in which the community college is located.

Non-Credit Instruction. Encompasses courses which are not part of a degree or certificate program, such as community service courses.

Plant Maintenance and Operation. This category includes all costs associated with operating the campus buildings including utilities, and routine repair and maintenance of buildings.

Public Service. This category includes expenditures for non-instructional services beneficial to individuals and groups external to the institution. Examples are workshops, administration of non-credit courses, concerts and other cultural events intended primarily for the public, and cooperative extension services.

Research. This category includes all expenditures for activities specifically and separately organized to produce research outcomes. Included are expenditures for institutes, research centers, and program and project research.

Scholarships and Fellowships. This category includes expenditures in the form of outright grants to students selected by the institution and financed from unrestricted funds in the form of tuition remission. Performance or athletic scholarships are not included.

Student Services. This category includes expenditures for the offices of admissions, registrar, deans of men and women, financial aid, and counseling. Student service activities are those that contribute to the student's emotional and physical well-being and to their intellectual, cultural, and social development outside the context of formal academic instruction.

Transfers. Included are funds that are transferred from the unrestricted current funds group to any of the restricted fund groups. Transfers are classified in the following three categories:

Auxiliary Transfers. This item applies to the four-year institutions and their two-year branches. An auxiliary enterprise is an entity that exists to furnish goods or services to students, faculty, or staff, and charges a fee directly related to, although not necessarily equal to, the cost of the goods or services. Most auxiliaries are expected to be self-supporting. These include dormitories, bookstores, food services, and health services. Student organizations, publications, and college unions may require a subsidy from the unrestricted educational and general budget.

Mandatory Transfers. This category includes transfers to restricted fund groups, excluding auxiliaries, arising out of legal agreements related to the financing of educational facilities, and grant agreements with the federal government or other external sources.

Non-Mandatory Transfers. This category includes transfers from the unrestricted current funds group to any restricted fund group to serve a variety of objectives unique to an institution. The most common non-mandatory transfers are to auxiliaries, to the plant reserve fund, and other transfers to loan funds, quasi-endowment funds, or pre-payments of debt principal.

**DIVISION OF LEGISLATIVE AUDIT
 AUDIT OF ARKANSAS TECH UNIVERSITY
 June 30, 2013**

<p><i>Finding No. 1:</i></p>	<p><u>Housing Security Deposits</u> The Arkansas Tech University (ATU) Internal Audit Department (IAD) reviewed certain transactions at the Commons Apartments (Commons), located on the ATU campus, where residents are required to pay a \$250 security deposit. An audit objective was to determine the source of cash used to pay deposits on behalf of six student-athletes.</p> <p>IAD review revealed that a Coach paid \$1,500 for Commons security deposits on behalf of six student-athletes using undeposited basketball camp revenue. Basketball camp revenue is normally deposited to the ATU Foundation. IAD recommended that the ATU Foundation be reimbursed \$1,500 and that the \$250 security deposits be charged to each of the six student-athletes' accounts.</p> <p>On May 22, 2013, \$1,500 was transferred from the Commons operating account to the ATU Foundation. The security deposits were not charged to the students' accounts because this matter emerged a few days before the students would have been refunded the deposits.</p> <p>This matter has been reported by the University to the National Collegiate Athletic Association.</p>
<p><i>Institution's Response</i></p>	<p>Additional internal controls have been implemented, as well as tightening of existing internal controls to decrease the risk of this type of situation occurring. These controls consist of adequate separation of duties during summer camps that include cash collections, receipt preparation and reconciliations. Specific controls to be enforced include timely funds deposits, using pre-numbered receipts, minimizing cash handling by using online payments and documentation of those processes.</p>
<p><i>Finding No. 2:</i></p>	<p><u>Information System</u> The following information system control weakness was discovered during an information system audit of the Banner Payroll and Student Accounts Receivable modules completed in Fall of 2010. Follow-up audits completed on August 30, 2011, October 3, 2012, and October 3, 2013 were performed to update the status of this outstanding issue. The University has made progress in correcting this weakness over the past three years; however, the following issues are still outstanding:</p> <p>Application security access should be restricted to what is required to perform job</p>

**DIVISION OF LEGISLATIVE AUDIT
 AUDIT OF ARKANSAS TECH UNIVERSITY
 June 30, 2013**

	<p>functions.</p> <p>Some users were identified that had inappropriate (excessive) accesses to the application.</p> <p>Failure to properly assign access permission increases the risk of accidental or intentional unauthorized transactions or data manipulation.</p> <p>A similar finding was reported in the previous three audits.</p>
<p><i>Recommendation</i></p>	<p>We recommend the Administrator review and revise security accounts to restrict access to only what is necessary for users to perform their job functions.</p>
<p><i>Institution's Response</i></p>	<p>In this finding, it was observed that our DBA Team and Associate Director had what was considered to be excessive access to multiple areas of Banner on a continuous basis. This access has been removed for all identified users effective 10/25/2013 and a new verification file is being submitted to Legislative Audit. Access will be limited and assigned on an as-needed basis for trouble verification and resolution and documentation of assignment access will be kept on record.</p>

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS, FAYETTEVILLE
June 30, 2012

<p><i>Investigative Report</i></p>	<p>An Investigative Report prepared by the Division of Legislative Audit (DLA) was issued on August 22, 2013 in response to a request by University of Arkansas, Fayetteville (University), Chancellor G. David Gearhart for DLA to conduct a financial review of the University's Division of University Advancement (Advancement), which had deficit cash balances for the fiscal years ended June 30, 2011 and 2012.</p> <p>DLA and the University of Arkansas System Internal Audit (Internal Audit) staff determined that DLA would review selected financial records as well as internal controls, policies, and procedures at Advancement, while Internal Audit would focus on budgetary controls over Advancement's operation.</p> <p>The summary from the DLA report is as follows:</p> <p>DLA review of Advancement financial records revealed deficit cash balances of \$2.14 million and \$4.19 million at June 30, 2011 and 2012, respectively. The overall decline in cash balances for the four-year period reviewed resulted from significant increases in expenditures, from \$7.94 million to \$13.23 million, without increases in revenues.</p> <p>In addition, the Treasurer's Office posted Advancement uncollectible accounts receivables of \$2.1 million and \$2.5 million at June 30, 2011 and 2012, respectively, which partially obscured the deficits in the financial statements.</p> <p>The Treasurer issued a report dated October 19, 2012, of her assessment of Advancement and its numerous deficiencies. However, at the financial audit exit conference on October 25, 2012, neither the Treasurer nor the Vice Chancellor for Finance and Administration disclosed information contained in the Treasurer's report to DLA staff.</p> <p>Finally, the Vice Chancellor for Advancement Division (VCAD) did not exercise proper fiscal oversight of Advancement and did not comply with University policies and procedures. The Budget Director included a deposit of restricted funds of \$1.35 million on May 12, 2012, that she incorrectly coded to the unrestricted account. In addition, the transactions processed in BASIS by the Budget Director regarding Advancement's financial status were inadequate and inaccurate. Specifically, Advancement and Foundation balances were not combined or reflected, and Foundation funding available or already expended was not recorded.</p>
<p><i>Institution's Response</i></p>	<p>As reflected in the findings and recommendations, the Division of Legislative Audit (DLA) was able to affirm the University's conclusions as to the causes that led to</p>

	<p>Advancement's overspending that ultimately resulted in a deficit balance in their accounts. Additionally, the results of their report indicated that "Based on review of available documents that were tested for propriety, DLA staff noted no other duplicate payments or improper expenditures."</p> <p>While we agree with many of the recommendations and conclusions presented in the Investigative Report, there are certain findings and recommendations where we disagree. The following is detailed commentary specific to recommendations presented in the report.</p>
<p><i>Finding No: 1</i></p>	<p>Lack of Fiscal Oversight by the Vice Chancellor for Advancement Division</p>
<p><i>Institution's Response</i></p>	<p>We agree. The University concluded in its October 19, 2012 report that insufficient management oversight, violation of university policy and intentional circumvention of established internal controls by the VCAD, Brad Choate, were the primary reasons that allowed overspending of available resources in the Division of Advancement. The University operates with established policies and procedures which are designed to support a strong internal control system while recognizing the flexibility required for sustaining the operations of a public research university. The VCAD and Budget Director were relieved of their duties in Advancement as a result of their deliberate actions to override existing controls, and were not retained as university employees. The University immediately began a review of the business practices and financial performance of Advancement and evaluated the functioning of the internal control system in order to identify weaknesses and implement changes as necessary to strengthen effectiveness.</p> <p>The BASIS system is capable of tracking anticipated revenues and expenditures that have not previously been budgeted; however use of this feature by the campus has been optional up to this time. During FY14, campus finance officers will be instructed on how to use this BASIS feature and strongly encouraged to implement immediately. Beginning in FY15, full budget loading considering revenue from all sources will be required for all campus units. Managers responsible for hiring approval will be instructed that approval for all positions shall only be granted when the source of salary funding is entered in the BASIS system and is expected to be available.</p> <p>The Division of Legislative Audit affirmed that they did not discover any improper</p>

	<p>payments other than the one duplicate payment discussed in the University’s report. We believe the duplicate payment was not an intentional act by the VCAD to misappropriate or direct university resources for personal gain. Just as the VCAD was unaware of the duplicate payment that was processed, he was equally unaware of over \$7,700 in reimbursable expenses that were accumulated over two years. The University identified these expenses, which occurred from September 2010 through October 2012, during the review of Advancement financial records and determined no reimbursement claims had been processed for payment. The University subsequently reimbursed the expenses on November 7, 2012.</p>

<p><i>Finding No: 2</i></p>	<p>Inadequate and Incorrect Accounting and Reporting by Advancement Budget Director</p>
<p><i>Institution’s Response</i></p>	<p>We agree. DLA has confirmed our conclusion that the Budget Officer, Joy Sharp, lacked the financial management expertise necessary to perform her duties. As stated in the October 19, 2012 report, “immediate steps were taken to address the lack of management oversight and lack of financial management expertise of Advancement staff.” Budget Director, Joy Sharp was relieved of all responsibility for financial management and reassigned to another position within the Division of Advancement on September 1, 2012. The Vice Chancellor for Finance and Administration appointed an Advancement Finance Officer who possessed the necessary skills and demonstrated experience to perform the duties required, with direct reporting to the VCFA. The Finance Officer began preparing financial reports for Advancement that included all revenue and expenditures, including resources available at the University of Arkansas Foundation, Inc (Foundation).</p> <p>The University has revised the process for depositing reimbursements from the Foundation by requiring that reimbursement checks be sent directly to the Treasurer’s office for deposit and entry into the accounting system, thus eliminating departmental handling of reimbursements from the Foundation.</p> <p>Additional processes are currently being developed to improve oversight of unit financial performance by Finance and Administration with the establishment of a formal reporting structure for campus financial officers and full budget loading in BASIS. The University is also currently developing a financial report to be used by all campus units that will provide comprehensive reporting of financial position monthly, which is expected to be introduced by December 2013. As an interim step, academic units began submitting monthly financial reports to the Provost and VCFA beginning in January 2013.</p>

<i>Finding No: 3</i>	Failure to Account for Direct Payments to Vendors
<i>Institution's Response</i>	<p>We agree except as noted. As stated in our response to findings #1 and #2, steps are being taken to include all funds in both budgeting and reporting and unit financial position.</p> <p>The Division of Advancement operates, as do all campus units, under the established University policies and procedures for procurement activities, including vendor payments. Processes and accounting structure are in place to support procurement activities intended for reimbursement from private funding sources on deposit at the Foundation. The VCFA in early 2009 directed the campus to process in the University's BASIS system all procurement activities intended to be funded with private resources that met State and university compliance requirements. The Budget Director did not comply with the directive of the VCFA. The VCFA will closely monitor campus Payment Authorization requests for direct payments to vendors and return to campus units those requests that can be processed in the BASIS system</p> <p>The Payment Authorization Form is a document developed by the Foundation to accumulate supporting documentation for their payments. The form is routed through various approval points on campus to support appropriate management review as well as due diligence for compliance with donor restrictions, tax compliance and compensation. The University disagrees that these forms should be retained as they are not supporting documentation for university payments. Campus units with funds on deposit at the Foundation have access to the Foundation's accounting system and can prepare reports necessary to track direct payments to vendors. Revised budget and financial reports in BASIS will provide university management with the information necessary to track direct spending from the Foundation.</p>
<i>Finding No: 4</i>	Increases in Expenditures
	<p>We agree with the exception noted. The University stated in its October 19, 2012 report "historical data suggests that the primary driver of accumulated deficit balances was the addition of staff with no permanent funding." The Division of Legislative Audit has validated that conclusion, although it is not clear in their finding. Total expenditures increased 67%, or \$5.29 million, over the four-year period. DLA concludes that \$1.95 million of that increase is attributable to payroll costs in FY12</p>

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS, FAYETTEVILLE

<p><i>Institution's Response</i></p>	<p>alone, \$.21 million attributed to maintenance, and \$.41 attributed to scholarships and other operating expenses, leaving a unidentified increase of \$2.72 million which represents unfunded salaries over multiple years that was not considered by DLA as a contributor to the cumulative deficit. For example an unfunded position added in FY10 impacts deficit amounts each year for a total of three years unfunded expenses. Clearly, when the cumulative effect of unfunded positions held over multiple years is considered, the significant driver of the accumulated deficit was overspending of payroll costs that were not supported by budget or private funding. We disagree that increases in scholarship spending impacted the cumulative deficit amount in any way. Scholarships awarded are based on gifts received and are thus fully funded.</p> <p>The salary structure for all university positions complies with State regulations for classification and compensation, regardless of the source of funding. As we have responded to previous recommendations, the University is taking steps to implement processes that will identify in BASIS the funding source for all positions.</p>
--------------------------------------	---

<p><i>Finding No: 5</i></p>	<p>Inaccuracies in Financial Statements Prepared by Treasurer's Office</p>
<p><i>Institution's Response</i></p>	<p>Accounts Receivable: The recording of the receivable was based on the University's interpretation of guidance contained in the Governmental Accounting and Financial Reporting Standards (GAFRS) section N50.117 and 118. We believe that applicable eligibility requirements were met and reimbursements due were collectable. The University did not establish a receivable as an effort to obscure a deficit balance, and we disagree that it is our typical practice to eliminate deficits in this way. Accounts receivable from the Foundation are only established for reimbursements due that have not been received at year-end.</p> <p>DLA examined the journal entry and supporting documentation establishing the Advancement account receivable in both FY11 and FY12 during their audit fieldwork for the financial statement audits. In both instances the University provided supporting documentation and answered all inquiries of the audit staff. There were no additional follow-up questions from field audit staff regarding documentation provided, audit managers did not raise any issue resulting from their review of audit documentation and the topic was not included in formal or informal communications with university management or the audit committee. Thus, the University believed that their interpretation of the accounting authoritative literature was accurate. DLA did not</p>

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS, FAYETTEVILLE

	<p>explain the inconsistency in their conclusions by reporting an exception in this Investigative Report.</p> <p>There is no automated mechanism in BASIS to eliminate revenue or expenses accrued in a prior period. Accrual entries are always reversed in the next reporting period so that revenue or expenses are not recognized twice.</p> <p>The internal report presented the cumulative amount of overspending as of June 30, 2012, including the deposit error credited to unrestricted funds identified subsequent to the accounting close. It was intended for management's use in evaluating Advancement financial performance and was never represented to be prepared in accordance with external reporting requirements.</p> <p>The University recognizes a difference in professional opinion regarding the appropriateness of recording the Advancement receivable. Accordingly, we will defer to the opinion of DLA and eliminate the entry from the account receivable balance recorded for FY13 and restate comparative amounts reported for FY12.</p> <p>Internal Loans: The University did not identify a reporting requirement in the Governmental Accounting and Financial Reporting Standards that was applicable to internal financing arrangements where all transactions occurred and were recorded entirely in a separate entities accounting system. For the two loans not disclosed, we determined that the terms described the source of funds for repayment as unrestricted private funds. All payment activity associated with these two arrangements was accomplished using unrestricted private funds that were received and on deposit in Foundation accounts. Payments were made by transfers from one Foundation account to another. At no time did the University provide any funds for either of these internal financing arrangements, nor did any transactions occur that were recorded in the BASIS system. Accordingly, there was no activity associated with these internal financing arrangements to report or disclose in our financial report.</p>

<i>Other Issues:</i>	Issues Not Disclosed at Exit Conference

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS, FAYETTEVILLE
June 30, 2012

<i>Institution's Response</i>	<p>We disagree that there were any pertinent matters referenced in the Management Representation Letter that were not disclosed. No allegation of fraud or suspected fraud was communicated to the Treasurer or the Vice Chancellor for Finance and Administration at any time. The Treasurer's report stated "no evidence of intentional acts to misappropriate resources for personal gain have been discovered." DLA contends that the university should make representations that they had knowledge of fraud or suspected fraud, when management did not have such knowledge.</p>

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS AT FORT SMITH
June 30, 2012

<i>Finding No. : 1</i>	The Disaster Recovery Plan in place is inadequate (both technical and end user) for restoring from short-term or long-term interruptions of computer processing. This situation could cause the entity to be without computer processing for an extended period of time in the event of a disaster or major interruption and could also place a financial and personnel burden on the resources of the entity.
<i>Institution's Response:</i>	We have begun reviewing the university's disaster recovery plan relating to interruptions of computer processing. We have also reviewed the audit checklist for deficiencies and are currently implementing the recommendations in order to enhance our current disaster recovery plan.

 AUDIT OF UNIVERSITY OF ARKANSAS AT LITTLE ROCK
 June 30, 2012**

<i>Finding No. : 1</i>	<u>Duplicate Travel Reimbursements</u>																																																																												
	At the request of the University's management, the University of Arkansas System Internal Audit Department (IAD) examined all 45 travel authorizations submitted by Dr. Chelte since his employment began with the University, in addition to travel expense/reconciliation forms and other University documentation. As a mentor or presenter for the Association to Advance Collegiate Schools of Business (AACSB), AACSB-accredited schools, and Rotary Youth Leadership Awards (RYLA), Dr. Chelte was reimbursed by the University for \$19,925 in travel costs for 10 trips. IAD confirmed Dr. Chelte was also reimbursed \$12,612 from the parties noted above and detailed in the table below. Dr. Chelte, Dean of the College of Business, repaid \$3,850 to the University on December 1, 2011 (the date he was notified of the internal audit), for a trip to France in June 2010.

Travel expenses submitted by Dr. Chelte included six instances totaling \$2,719 that were either unauthorized or unrelated to University business. One expense for \$1,696 was for airfare purchased using the University's business travel account. Dr. Chelte originally purchased a plane ticket to Germany to teach at another university and subsequently exchanged it for a ticket to Hawaii for a trip that was unrelated to University business. Three instances totaling \$823 were for ticket change fees that, based on Dr. Chelte's travel claims and other University documentation,

	<p>were unrelated to University business and should not have been expensed to the University. The remaining two instances totaling \$200 appear to be for preferred seating charges, an unauthorized use of funds.</p> <p>On May 7, 2012, the University of Arkansas System General Counsel submitted the Internal Audit records to the Prosecuting Attorney of the Sixth Judicial District for the State of Arkansas for review.</p> <p>On June 12, 2012, the University of Arkansas System General Counsel requested repayment from Dr. Chelte in the amount of \$27,826.98 for the amounts owed to UALR for double billing for travel, unauthorized travel and for taking annual leave and not reporting it. On June 21, 2012, UALR received payment from Dr. Chelte in the amount of \$23,287.48. The amount owed by Dr. Chelte was reduced by leave time that Dr. Chelte had accrued at December 31, 2011. UALR accepted the amount received as repayment in full.</p> <p>On September 12, 2012, the University of Arkansas System received a letter from the Prosecuting Attorney noting that his office had decided not to prosecute Dr. Chelte.</p>
<p><i>Institution's Response:</i></p>	<p>The University received a \$23,287.48 cashier's check from Dr. Chelte on June 21, 2012. This included \$8,762.00 for the duplicated travel reimbursements and \$2,718.80 for unauthorized travel expenses plus an additional \$11,806.68 to repay for annual leave not properly reported.</p>

% OF MINORITY CONTRACTS AWARDED 22%

(1) The \$609,008 is the portion of our total vendor contracts totaling \$2,823,741 that were defined as expenditures that are minority biddable. The \$609,008 amount listed does not include small order purchases that went to minority vendors. Adding in the small order amount (\$201,138) to the \$609,008 gives a total of \$810,146 for FY13. Contracts exclude drugs and medicine, blood derivatives, medical implants & appliances, nonbiddable grant expenses and mandatory state contract purchases approved by the Arkansas Economic Development Commission in conjunction with the Office of State Procurement.

Federal Award Year(s): 8/1/2010 – 7/31/2013 (BTOP);
Other Various (except Student Financial Aid)
Compliance Requirement(s) Affected: Subrecipient Monitoring
Type of Finding: Noncompliance

Criteria:

In accordance with the June 2012 Compliance Supplement: Part 3, section M., Subrecipient Monitoring, entities are required ensure all subrecipients expending \$500,000 or more in fiscal years ending after December 31, 2003 have met the audit requirements of OMB Circular A-133 and that the required audit was completed within nine months of the end of the subrecipient's period. Additionally, entities must ensure to issue decision on any findings within the subrecipient's audit report within six months after receipt of the report and ensure the subrecipient takes timely and appropriate corrective action on all findings.

Condition and Context:

During our testing of subrecipient monitoring and discussions with management, we note management's review of subrecipients' audit reports only pertains to grants with the CFDA number of UAMS's relevant pass-through grant. Management reviews the audit reports of UAMS's subrecipients through the Federal Audit Clearinghouse. If there are any findings related to the CFDA number related to the relevant pass through grant, management requests the full audit report, including findings and management's response and corrective action plan and reviews this full report. If there are findings un-related to the CFDA number, management indicated they will typical waive further review procedures. For the R&D Cluster, in our testing of a sample of seven subrecipients, we noted that of the reports that were reviewed by management, there was one instance in which there were findings on other CFDA numbers within the R&D cluster that were investigated by management. Additionally, there is one subrecipient in the BTOP cluster. Although this subrecipient did not have any audit findings in the report viewed by management on any CFDA number, as management's review was still specific to their own applicable CFDA number, we note that this issue applies to this cluster.

Questioned Costs:

None noted.

Cause:

Management has only been reviewing reports for findings related to their specific CFDA number rather than all findings. As such there is a gap in management's review process.

Compliance Requirement(s) Affected: Subrecipient Monitoring
Type of Finding: Noncompliance

Effect:
Subrecipients may have instances of noncompliance and control deficiencies that would cause them to be a more risky entity. Many A-133 procedures are performed utilizing a sampling testing approach and therefore findings on a subrecipient audit report may only reflect the specific awards where exceptions were found but additional exceptions may have occurred on other awards during the year. A pass through entity would be at risk that the same compliance and control matters described in the audit report could have occurred on the grant they are passing through. As such, management's risk assessment of the subrecipient may not be appropriate and the appropriate monitoring tasks may not be applied.

Recommendation:
We recommend that management perform a review of all findings for subrecipients rather than just findings related to CFDA numbers associated with their pass-through grants. Not reviewing all subrecipient findings could result in the oversight of material findings which could have a direct or indirect impact on the Entity. Additional findings should be reviewed by management and taken into consideration for determining the risk associated with the subrecipient, whether or not UAMS should continue to pass-through money to the subrecipient, and the appropriate level of monitoring for the subrecipient given the updated risk assessment.

Views of Responsible Officials and Planned Corrective Action:
UAMS will update current procedures to ensure that all findings are taken into consideration for determining risk associated with subrecipients.

UPDATE: Policy was reviewed but no changes were needed. The policy does not address findings as by CFDA nor by entity. Procedures have been changed to review all findings.

Federal Award Number(s): 5R01DK56226; 314100011573
Federal Award Year(s): 1999, 2001, and 2002
Compliance Requirement(s) Affected: Equipment Management
Type of Finding: Noncompliance

Criteria:

In accordance with A-110 section 34 (f) 3, an entity retaining equipment owned by the Federal Government needs to perform a physical inventory of equipment at least once every two years, and management is required to reconcile the results with the equipment records. Any differences resulting from this reconciliation process shall be investigated. The entity shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment. A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was owned by the Federal Government, the recipient shall promptly notify the Federal awarding agency.

Condition and Context:

Out of a sample of 60 items of R&D equipment selected for physical inspection, one item was not located. The item was purchased in October 2003 at a cost of \$499. Although the 2012 count sheet indicated this item was located and counted, through discussion with management it has been determined that this item was moved after the inventory was taken but the new location has not been documented.

Additionally, the fixed asset records of three assets out of a sample of 60 were not appropriately updated to reflect the disposal of these assets. One of the assets was purchased in 1994 for \$3,008 and was disposed of in 2009, another was purchased in 2001 for \$3,718 and disposed of in 2002, and the final asset was purchased and disposed of in 2009 at the original price of \$6,107. Based on discussion with management, one asset was disposed and the records were not properly updated to reflect this. Two of these assets were virtually tagged, which means due to size and use of assets there was not a physical tag on the item, rather it was virtually tagged and linked to another asset that was physically tagged. The virtually tagged assets and physically tagged assets to which they were linked were disposed in previous years, but the fixed asset records only reflected the disposal of the physically tagged asset rather than both assets. We selected two virtually tagged assets that could not be located as they had been disposed of and the records were not updated.

Questioned Costs:

None noted.

Cause:

UAMS's documented fixed asset policies were not followed for timely investigation of missing assets and appropriate updating of the fixed asset system when items were moved to surplus or state marketing and redistribution.

Federal Award Year(s): 1999, 2001, and 2002
Compliance Requirement(s) Affected: Equipment Management
Type of Finding: Noncompliance

Effect:
Loss of equipment purchased with federal funds could occur when management does not investigate lost or misplaced assets timely. In addition, lack of controls over disposition of assets may result in UAMS not meeting its notification requirements to the respective federal awarding agency.

Recommendation:
We recommend that management review other virtually tagged assets to ensure there are no additional assets in the system that have been moved to surplus. This would ensure records are updated to accurately reflect only virtually tagged assets that are still in use. Management should ensure that accounting records get updated after the fixed asset physical inventory is performed. Additionally, management should ensure all assets' locations are current, and if assets are lost, procedures as outlined in UAMS's policy are followed.

Views of Responsible Officials and Planned Corrective Action:
In regards to the audit findings, Property Services personnel are being retrained. The training includes specific instructions regarding the proper steps to follow when disposing of an asset including but not limited to accurate and timely updates to the fixed asset records. We believe that the exceptions regarding linked assets and virtually tagged assets resulted primarily from various transitions and upgrades to the asset tracking system during the past ten years. We are in the process of reviewing all linked or virtually tagged assets to ensure their disposition is up to date.

In regard to the un-located camera, the Department is now requiring all off campus assets to be verified (returned to campus) before filling out and signing an off-campus form. The exception would be for BTOP assets or installed assets that cannot be disconnected because of size or use.

Federal Award Number(s): N/A
Federal Award Year(s): July 1, 2011 through June 30, 2012
Compliance Requirement(s) Affected: Reporting
Type of Finding: Noncompliance and Significant Deficiency

Criteria:

In accordance with 34 CFR section 685.209, under Federal Direct Loan programs, educational institutions must complete and return the Enrollment Reporting roster files (formerly the Student Status Confirmation Report (SSCR)) placed in their Student Aid Internet Gateway (SAIG) mailboxes within 30 days. Once received, the institution must update the Enrollment Reporting roster file for changes in student status, report the date the enrollment status was effective, enter the new anticipated completion date, and submit the changes electronically through the batch method or the National Student Loan Data system (NSLDS) web site. Institutions are responsible for timely reporting, whether they report directly or via a third-party servicer.

Unless the institution expects to complete its next roster within 60 days, the institution must notify the lender or the guaranty agency within 30 days, if it discovers that a student who received a loan either did not enroll or ceased to be enrolled on at least a half-time basis.

Condition and Context:

During our testing of enrollment reporting, we noted eight instances out of a sample of 40 where changes in students' status were not reported to the NSLDS within 60 days of the status change. Two of the eight students were reported later than 60 days. The remaining six students' information was not reported to the NSLDS as of September 30, 2012, even though their status was updated in the student system (OASIS) prior to June 30, 2012.

Questioned Costs:

None noted.

Cause:

The college registrars do not always update the student system with status changes in a timely and accurate manner. We also found that the automatic system processes used by UAMS to match data in the student system to the NSLDS data may have errors causing instances where student status changes posted in the student system are not reported back to the NSLDS due to transitional data issues.

Effect:

The Department of Education is not aware of the students' status which will impact future annual eligibility for the student.

Recommendation:

We recommend that management perform a review of the automatic reporting processes between the student system and NSLDS to ensure the processes are working as expected and applicable data is properly reported between UAMS and NSLDS. We recognize that management is under contract to start using the

We recommend that management review the enrollment reporting through their official transition to NSC to ensure that student status changes are reported accurately and timely during the first portion of the year not under the servicer.

Views of Responsible Officials and Planned Corrective Action:

A SSCR Taskforce was formed to review the SSCR options and submission responsibilities. The taskforce included Academic Computing, Registrars, and Student Financial Services staff who recognized the urgent need to switch to the National Student Clearing House. In the meantime, Academic Computing and Student Financial Services staff performed a review of the current automatic reporting processes in September between UAMS and NSLDS. Academic Computing staff has been processing test files with the National Student Clearinghouse. We are in the baseline reportable data stage of finalizing the implementation. Compliance Requirement(s) Affected: American Recovery and Reinvestment Act Reporting
Type of Finding: Noncompliance

Criteria:

On June 22, 2009, the OMB published the Memorandum - *Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009* (the Recovery Act). Section 1512 of the Recovery Act requires submittal of progress reports on the use of Recovery Act funding by recipients no later than the 10th day after the end of each calendar quarter. All data contained in each quarterly recipient report will be cumulative in order to encompass the total amount of funds expended to date. Recipients have the ability to update reports if there are material differences that would require the reports to be corrected during the continuous correction period.

Condition and Context:

In our sample of 14 ARRA Reports submitted by management, we noted that there was one report for the period ended June 30, 2012, in which management had expenditures associated with the quarter that were not captured in the appropriate ARRA Report. The ARRA report was submitted by management before the quarterly close process was finished, and thus, expenditures of a total of \$814K was not appropriately captured in the reports. Refer to the table below for details regarding difference identified for the reports tested for the quarter ended June 30, 2012. Management did not update the report as part of the continuous correction period, but rather included the amount in the subsequent quarters' reports.

Expenditures			
Award #	Actual	Reported	Difference
1 C06 RR029923-01	\$5,622,657	\$6,437,147	(814,490)
		Total	(814,490)

Questioned Costs:

None noted.

Cause:

Management does not have appropriate controls in place over the review process for ARRA awards which allowed this incomplete reporting to exist.

Compliance Requirement(s) Affected: American Recovery and Reinvestment Act Reporting

Effect:

The Federal agencies did not receive accurate cumulative expenditure amounts on which to base programmatic decisions.

Recommendation:

We recommend that UAMS prospectively implement a policy to modify the data in its Section 1512 reports to capture data through the actual quarter-end in order to ensure compliance with Section 1512 reporting requirements, utilizing the continuous correction period, if necessary. Controls should be implemented to ensure effective supervisory review to validate that amounts reported are complete and accurate.

Views of Responsible Officials and Planned Corrective Action:

UAMS interpreted guidance found in the NIH FAQ's to say that if expenses were incurred for the quarter but posted after the institution cutoff date, as long as the expenses were not material, the expenses could be reported in the following quarter. In the future the determination of materiality will be based on the quarterly expenditures, not the award amount.

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS AT PINE BLUFF
June 30, 2012

<p><i>Finding No. : 1</i></p>	<p>The University of Arkansas System Internal Audit Department (IAD) conducted an audit of certain transactions of the Harrold Dorm Complex and Living Learning Center (Harrold Dorm Complex) located on the University's campus. The Chancellor appointed the Assistant to the Chancellor to a concurrent employment role as the Director of the Harrold Dorm Complex (Director).</p> <p>IAD was unable to audit and verify, in accordance with generally accepted auditing standards, the accuracy of Harrold Dorm Complex payroll expenditures totaling \$497,532 because of the Director's apparent override of the University's existing controls over payroll. IAD was also unable to audit, in accordance with generally accepted auditing standards, and questioned disbursements totaling \$239,348 because of inadequate documentation and the Chancellor's and the Director's override of the University's purchasing controls over the Title III Endowment Agency Account. Of the questioned expenditures, the IAD determined the University incurred a loss of \$4,219 as a result of unsupported disbursements to the Director.</p> <p>Specifically, IAD findings related to payroll, purchasing and accounts payable, inventory, financial aid, and financial reporting, some of which are described below:</p> <p><u>Payroll</u></p> <ul style="list-style-type: none"> • 58% of timesheets were not signed by the actual employee but were signed and initialed by another employee. • 85% of timesheets were not approved by the employee's supervisor. • The Director approved timesheets for family members. • Five employees received duplicate payments totaling \$1,574. • 13% of hours reported per sign-in logs did not agree with timesheets paid through payroll. • Hourly rates paid did not always agree with approved hourly rates or did not comply with the Department of Finance and Administration's Office of Personnel Management policy. • Labor cost during the Thanksgiving and Christmas breaks appeared excessive for the Harrold Dorm Complex when compared to the other dorms. • In violation of state law, 11 employees classified as extra help labor worked and were paid for more than 1,500 hours between July 1, 2009 and June 30, 2010. <p><u>Purchasing and Accounts Payable</u></p> <ul style="list-style-type: none"> • Purchases to support operation of the Harrold Dorm Complex with funds from the University's Title III Endowment Agency Account were based on disbursement requests from the Chancellor or the Director to the bank on which the Chancellor's name was signed. These requests were not under administrative review and control of the University's finance department. • Three disbursements totaling \$108,789 were supported by invoices; however, the invoices

	<p><u>Purchasing and Accounts Payable (Continued)</u> totaled more than \$25,000 and were paid without a competitive bidding process, sole source justification, or emergency purchase documentation on file.</p> <ul style="list-style-type: none"> • Individuals hired as employees through the payroll process were also hired as contract labor. During fiscal years 2009 and 2010, payments for contract work overlapped payments as employees, resulting in duplicate payments of \$6,500. • Eleven employees hired as contract labor were not issued the required IRS Form 1099. <p><u>Inventory</u></p> <ul style="list-style-type: none"> • During a physical inventory, it was noted that the University had incurred a \$9,936 loss for missing inventory items. • Approximately 20 items of moveable equipment in the Harrold Dorm Complex, valued at \$32,350, had not been recorded in the inventory system. <p><u>Financial Aid</u></p> <ul style="list-style-type: none"> • A student was allowed to reside in the Harrold Dorm Complex at no cost. This housing assistance, valued at \$2,860, was not reported as an institutional scholarship on the student's account and, therefore, was not properly reported on the student's IRS Form 1098-T for calendar year 2011. • The Chancellor authorized checks to two students for \$1,800 and \$900, respectively, from the Title III Endowment Agency Account. Documentation for the \$1,800 check was not available for audit; however, a reimbursement for \$1,800 plus \$18 interest was noted in the same month as disbursement. Documentation for the \$900 check indicated the purpose of the check was to pay the student's outstanding tuition balance. The payment was not classified and reported as an institutional scholarship on the student's account and, therefore, was not properly reported on the student's IRS Form 1098-T for calendar year 2009. <p><u>Financial Reporting</u></p> <ul style="list-style-type: none"> • Title III Endowment Agency Account expenditures were not properly documented or recorded.
<p><i>Institution's Response:</i></p>	<p><u>Payroll</u></p> <ul style="list-style-type: none"> • Effective March 1, 2012, timesheets submitted must have the signature of the employee and their supervisor. Timesheets initialed or without signatures are returned to the department unprocessed. • The Director who approved timesheets for family members is no longer employed at the university. • Of the \$1,573.64 in duplicate payments, \$828.31 has been collected. The remaining balance of \$735.33 will be turned over to a collection agency.

Payroll (Continued)

- These sign-in logs were maintained by the Director who is no longer employed at the university
- Effective March 1, 2012, all hourly rates paid are in compliance with the Department of Finance and Administration Office of Personnel.
- Labor cost for all dormitories are consistent and in line with actual holiday schedule of operations.
- Departmental supervisors, along with HR/Payroll, will monitor extra-help employees to ensure the 1500 hours are not exceeded.

Purchasing and Accounts Payable

- Effective March 1, 2012, all purchase requests from the Title III Endowment Agency Account are processed through the University's Purchasing and Accounts Payable Department to ensure adequate receipts and supporting documents exist to substantiate the purchases and comply with university policies and state and federal laws.
- The employment of individuals for contract labor which caused overlap in payment was done by the Director of the Harrold Living Learning Center during 2009-2010. Individuals hired as contract labor workers did not come through the university's system. The individuals responsible are no longer employed at the university.

Inventory

- The Director of the Harrold Living Learning Center is no longer employed.
- The university has inventory control procedures as outlined in our Finance and Administration Business Procedures Manual. Deans, directors, and department heads are responsible for moveable equipment inventory within their department and are expected to exercise reasonable care in securing and maintaining such property. It is the department's responsibility to notify the Inventory Control Manager in writing on the location, disposal, missing or stolen inventory.

Financial Aid

- As recommended by IAD (Internal Audit Department), the university researched the student's eligibility for housing assistance. The student was not eligible and did not meet the criteria to receive and housing assistance scholarships. Therefore, the university applied room and board charges to the student's account for the time frame in which she resided in the Harrold Living Learning Center. Because the student was hired to work as a live-in Resident Assistant by the former Director, who made the decision to allow her to reside in the resident hall without charge, the university has written the Department of Finance and Administration for approval to abate the changes.

Financial Reporting

- As reported by IAD (Internal Audit Department), the Accounting Department did receive

	<p><u>Financial Reporting (Continued)</u> supporting documentation related to any of the transactions processed from the Title III Endowment Agency Account. However, these transactions were properly recorded in the general ledger under the endowment fund.</p> <p>The expenditures were also properly accounted for on the audited financial statements, which are prepared in accordance with GASB Statement no. 35, Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities. The financial statement presentation required by GASB no. 35 provides a comprehensive, entity-wide perspective of the University of Arkansas at Pine Bluff’s assets, liabilities, net assets, revenues, expenses, changes in net assets and cash flows.</p> <p>Management will accept Internal Audit’s recommendation and allocate future expenditures paid from the Title III Endowment Agency Account to the respective department. However, it is important to note that transferring expenses and revenues from the endowment account to the respective department will have a zero net effect and change in fund balance of the endowment fund and the respective department’s fund.</p>

<p><i>Finding No. : 2</i></p>	<p>The University requested that IAD audit travel-related charges by the Women’s Head Volleyball Coach. For the period August 2009 through May 2011, IAD calculated losses of \$3,145 in unauthorized Voyager Fuel Card charges and \$4,947 in duplicate claims and unsupported expense items, for a total loss of \$8,092. University management has recovered \$3,145 of the calculated loss.</p>
<p><i>Institution's Response:</i></p>	<p>On November 1, 2011, the University’s attorney sent a letter to the former Women’s Head Volleyball Coach requesting that she reimburse the university in the amount of \$4,947 by November 30, 2011. As of November 15, 2012, the University has not been reimbursed.</p>

**DIVISION OF LEGISLATIVE AUDIT
AUDIT OF UNIVERSITY OF ARKANSAS AT PINE BLUFF
June 30, 2012**

U.S. DEPARTMENT OF EDUCATION

Finding Number: 12-160-01
State/Educational Agency(s): University of Arkansas at Pine Bluff
CFDA Number(s) and Program Title(s): 84.038 – Federal Perkins Loan Program Federal Capital Contributions
(Student Financial Assistance Cluster)
Federal Award Number(s): N/A
Federal Award Year(s): 2012
Compliance Requirement(s) Affected: Reporting
Type of Finding: Noncompliance

Criteria:

In accordance with 34 CFR § 668.16(m)(1)(ii) of the Student Assistance General Provisions and 34 CFR § 674.5 of the Federal Perkins Loan Program, an institution that begins and continues to participate in any Title IV, Higher Education Act (HEA) program must demonstrate that it is capable of adequately administering that program under the standards established. The Secretary considers an institution to have that administrative capability if the institution's cohort default rate under the Federal Perkins Loan Program does not exceed 15%. In addition, as stated in 34 CFR § 674.5(a)(1), if an institution's cohort default rate equals or exceeds 25%, the institution's Federal Capital Contribution (FCC) is reduced to zero.

Condition and Context:

Part III of the University's Fiscal Operations Report and Application to Participate (FISAP) was obtained, and the cohort default rate, a key line item, was examined. The University's current year cohort default rate was 44%. A similar finding has been reported in previous audits.

Questioned Costs:

None

Cause:

The Federal Perkins Loan Program cohort default rate was significant because of the small population of borrowers included in the calculation. The University reported that 7 of 16 borrowers who had entered repayment status during the prescribed period were in default.

Effect:

The University exceeded the allowable Federal Perkins Loan program cohort default rate.

Recommendation:

We recommend the University establish procedures to lower its cohort default rate to an acceptable level.

CFDA Number(s) and Program Title(s): 84.038 – Federal Perkins Loan Program Federal Capital Contributions (Student Financial Assistance Cluster)
Federal Award Number(s): N/A
Federal Award Year(s): 2012
Compliance Requirement(s) Affected: Reporting
Type of Finding: Noncompliance

Views of Responsible Officials and Planned Corrective Action:

As previously reported the University is liquidating the Federal Loan Program and has not awarded any new loans to students. Less than 30 borrowers entered repayment in FY11 so the default rate was based on the average for the past three years. Sixteen borrowers entered repayment in this three year period with seven defaulting resulting in the default rate of 43.75%. None of the seven borrowers who first entered repayment in the most recent year (7/1/10-6/30/11) defaulted.

The University has extended its agreement with an outside agency, Campus Partners, to service the loan portfolio and ensure timely billing and due diligence is performed through June 30, 2013.

The University is continuing its process of assigning loans to the U. S. Department of Education and efforts will continue to fully liquidate the program with plans to have completed by June 30, 2013.

Finding Number: 12-160-02
State/Educational Agency(s): University of Arkansas at Pine Bluff
CFDA Number(s) and Program Title(s): 84.268 – Federal Direct Student Loans
(Student Financial Assistance Cluster)
Federal Award Number(s): P268K121072
Federal Award Year(s): 2012
Compliance Requirement(s) Affected: Special Tests and Provisions
Type of Finding: Noncompliance and Significant Deficiency

Criteria:

In accordance with 34 CFR § 685.303 (b)(4)(i) of the Student Assistance General Provisions, if a student is enrolled in the first year of an undergraduate program of study and has not previously received a Federal Stafford Loan, Federal Supplemental Loans for Students, Direct Subsidized Loan, or Direct Unsubsidized Loan, a school may not disburse the proceeds of a Direct Subsidized or Direct Unsubsidized Loan until 30 days after the first day of the student's program of study.

Condition and Context:

The University did not comply with regulations concerning disposition of Direct Loans. During our examination of loan proceeds for four first-year, first-time borrowers, we noted the University inappropriately disbursed loan proceeds to one student's account prior to the 30th day after the first day of class. To determine the prevalence of the errors, we compiled a list of freshman students who received loan disbursements prior to the 30th day after the first day of class during the fall 2011 semester. We selected 15 of the 229 freshman students and determined that all 15 students were first-year, first-time borrowers.

Questioned Costs:

None

Cause:

The University failed to establish adequate internal controls to ensure compliance with loan disposition requirements.

Effect:

Loan disbursements were made to first-year, first-time borrowers prior to the 30th day after the first day of class.

Recommendation:

We recommend the University establish procedures to ensure compliance with loan disposition requirements.

Views of Responsible Officials and Planned Corrective Action:

The University has procedures in place to identify and flag loan disbursement records for students who are first time undergraduates enrolled in the first year of their program who has not previously received a loan. We have evaluated internal controls and as a result implemented a new procedure to ensure that the mechanism we have in place is working properly. We have rules defined in our student financial aid system; the Director of Student Financial Services will run a test prior to each award period to make sure these rules are working properly. To assure this task is performed it was immediately added to our check-list of activities that must be performed to process all student awards.

Finding Number:	12-175-01
State/Educational Agency(s):	National Park Community College
CFDA Number(s) and Program Title(s):	84.063 – Federal Pell Grant Program 84.268 – Federal Direct Student Loans (Student Financial Assistance Cluster)
Federal Award Number(s):	PO63P113508; P268K123508
Federal Award Year(s):	2012
Compliance Requirement(s) Affected:	Special Tests and Provisions
Type of Finding:	Noncompliance and Significant Deficiency

Criteria:

In accordance with 34 CFR § 668.22 of the Student Assistance General Provisions, when a recipient of Title IV grant or loan assistance withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must determine the amount of Title IV aid earned by the student as of the student's withdrawal date. If the amount disbursed to the student is greater than the amount the student earned, the unearned funds must be returned to the Title IV programs. If the amount disbursed to the student is less than the amount the student earned and for which the student is otherwise eligible, he or she is eligible to receive a post-withdrawal disbursement (PWD) of the earned aid that was not received.

Condition and Context:

Initially, five returns were tested for compliance with the above criteria and four exceptions were detected. An additional 10 returns were selected for examination, and five more exceptions were detected. Due to the number of exceptions, College personnel recalculated all returns for the year ended June 30, 2012, and provided a listing of the recalculations for testing. Our testing confirmed the cause of the exceptions and the resulting financial effects.

Questioned Costs:

None

Cause:

The College's calculations of returns to the Title IV programs were performed based on specific criteria input into the database. When inputting the total number of calendar days in a payment period or period of enrollment, the College failed to exclude breaks of at least five consecutive days from the total number of calendar days in a payment period or period of enrollment and the number of calendar days completed in that period as required by 34 CFR § 668.22 (f)(ii)(C)(2)(i).

Effect:

The College returned institutional costs of \$4,590 to the Federal Pell Grant Program and \$15,846 to Federal Direct Student Loans in excess of the amounts required. Additionally, the amount due to students for aid earned but not received (PWD) increased by a total of \$1,348, of which \$1,092 related to the Federal Pell Grant Program and \$256 to the Federal Direct Student Loans program.

Type of Finding: Noncompliance and Significant Deficiency

Recommendation:

We recommend the College strengthen procedures to ensure that returns to the Title IV programs are calculated correctly and contact the U.S. Department of Education for resolution of this matter.

Views of Responsible Officials and Planned Corrective Action:

Incorrect Return to Title IV Calculations

Issue: Upon testing R2T4 calculations, Legislative Audit determined that the denominator in the calculation was not correctly excluding the holidays of 5 consecutive days in fall or spring terms for the 2011-2012 year. The auditor brought this to the attention of the Director of Financial Aid, the PeopleSoft consultant was contacted, and it was determined that the Registrar's Office is the office responsible for entering the holiday days into the system. With the new management information system, the holiday schedule was not updated to accurately reflect the correct number of holidays.

Immediate Solution Steps Taken

The PeopleSoft consultant contacted the Assistant Registrar and determined the correct dates for start and end of terms and holidays for year 2011-2012. The dates were entered into the correct tables in PeopleSoft.

The Financial Aid Director and Default Management Coordinator printed R2T4 calculation pages from the Image Now system to gain the correct information. The original data was recalculated by the PeopleSoft R2T4 System to utilize the corrected data. These changes resulted in fewer funds needing to be returned on behalf of the school for each student. A spreadsheet which records the R2T4s performed each year was expanded to include columns for the correct calculation amounts if funds were due to the student (PWD- post withdrawal disbursements), funds required to be returned by the school, and any loan funds students owe (but which are still repaid based on the terms of the MPN, Master Promissory Note, for each student). Columns for those three amounts by student and total were calculated, showing the difference or change the recalculations made. The PWD amount to pay to students changed a total of \$1,348, (\$1,092 related to Pell grants and \$256 to Direct Loan program). Funds to be returned by the school to the USDE were reduced by \$20,436 (\$4,590 related to the Pell grant program and \$15,846 related to the Direct Loan Program).

Long-term plan (to insure future accuracy)

Instructions on how this should be updated each year have been drafted. The Financial Aid Director, Financial Aid Counselors, and processors have been given view access to this schedule, and will review this schedule and start and end dates of the terms as part of the aid year set up process each year.

The College has strengthened procedures to ensure that returns to the Title IV programs are calculated correctly and has assured the U.S. Department of Education that these discrepancies will not occur again.

We have addressed this finding, and have corrected our records accordingly. The staff members involved understand the rationale behind this finding and have assured me these discrepancies will not occur again.

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF NORTHWEST ARKANSAS COMMUNITY COLLEGE
June 30, 2012

<p><i>Finding No. 1:</i></p>	<p>In December 2011, the College overpaid withholding taxes to the Internal Revenue Service totaling \$4,614 and was assessed a late filing penalty of \$425 for not making tax deposits in a timely manner. Subsequently, the College was assessed an additional late filing penalty by the Internal Revenue Service of \$5,103 for the March 2012 quarterly filing period. A similar finding was reported in the previous audit.</p>
<p><i>Institution's Response</i></p>	<ul style="list-style-type: none"> • In October 2012, a Certified Payroll Professional was hired to manage the Payroll Office. She provides reports to management ensuring that all tax deposits are made in a timely manner. • Payroll is reconciled to the Employer's Federal Quarterly Tax Return (form 941) each time a payroll is run, including off-cycle pays, to ensure that at the end of the quarter all taxes were paid accurately and in a timely manner.

DIVISION OF LEGISLATIVE AUDIT
AUDIT OF NORTHWEST ARKANSAS COMMUNITY COLLEGE
June 30, 2012

<p><i>Finding No. 2:</i></p>	<p>The following information system control weaknesses were discovered during an information system audit of the Banner Payroll and Students Accounts Receivable modules completed Summer 2013.</p> <p>Application security access should be restricted to what is required to perform job functions.</p> <p>Programmers (web and application) were identified that had inappropriate update access to the Banner application and databases. This includes the ability of programming personnel to update and move programming changes into the production system.</p> <p>Failure to properly assign access permission increases the risk of accidental or intentional unauthorized transactions or data manipulation.</p>
<p><i>Recommendation</i></p>	<p>Management review and revise security accounts to eliminate programming staff's update access to the production system and also implementing a "gate keeper" (either non-programming staff or automated software) that will be utilized when moving programming changes into production.</p>
<p><i>Institution's Response</i></p>	<p>The following corrective steps are being taken:</p> <ol style="list-style-type: none"> 1. All access to production Banner forms and application servers will be removed from programming staff members by December 31, 2013. A "gate keeper" workflow process will be developed to manage the movement of programming changes into production. 2. Any emergency exceptions will require documented authorization from management.

AUDIT OF PHILLIPS COMMUNITY COLLEGE OF THE UNIVERSITY OF ARKANSAS
June 30, 2012

<i>Finding No. : 1</i>	To verify the accuracy of student enrollment data submitted to the Arkansas Department of Higher Education, we examined supporting documentation and discovered one student, reported as enrolled, had withdrawn from a Spring 2012 class, prior to the eleventh class day.
<i>Institution's Response:</i>	Policies and procedures in place in the Registrar's Office will be reviewed and strengthened, as necessary, to insure that all student enrollment data is accurate and adequately documented. Advisors and instructors will be reminded of the importance of submitting all drop forms in a timely manner.

 AUDIT OF PULASKI TECHNICAL COLLEGE
 June 30, 2012**

<p><i>Finding No: 1</i></p>	<p>Financial statements should be presented fairly in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The College's internal control system did not detect or prevent material misstatements in the financial statements. Key errors in the Comparative Statement of Net Assets, the Comparative Statement of Revenues, Expenses, and Changes in Net Assets, the Comparative Statement of Cash Flows, and the Notes to the Financial Statements included:</p> <p>Comparative Statement of Net Assets and Comparative Statement of Revenues, Expenses, and Changes in Net Assets</p> <p>a) Due to errors in the calculation of accrued bond interest payable (\$135,143) and the amortization of a loss on refunding bonds (\$129,212), various accounts were overstated with corresponding understatements in other accounts. As a result of these errors the related expense account (interest on capital assets - related debt) was misstated on the Statement of Revenues, Expenses, and Changes in Net Assets.</p> <p>b) Due to misclassifications, invested in capital assets, net of related debt was understated by \$1,090,895 and restricted net assets were overstated by the same amount.</p> <p>Comparative Statement of Cash Flows</p> <p>There were overstatements totaling \$72,250,140 relating to various accounts with corresponding understatements in other accounts. The majority of the errors pertained to transactions related to the College's reporting of financial activity from a \$69,485,000 bond issue.</p> <p>Notes to the Financial Statements</p> <p>a) Due to a misclassification, the other accounts payable unexpended plant was overstated and other accounts payable debt retirement was understated by \$1,084,964 in the disaggregation of payables note disclosure (Note 7).</p> <p>b) In the public fund deposits and investments note disclosure (Note 2), the amount of deposits insured (FDIC) was understated by \$1,083,164, the collateral held by pledging bank was overstated by \$1,008,380, and uncollateralized deposits were overstated by \$74,784.</p> <p>c) In the changes in long-term liabilities section (Note 5), the compensated absences payable was understated by \$103,622.</p>

**DIVISION OF LEGISLATIVE AUDIT
 AUDIT OF PULASKI TECHNICAL COLLEGE
 June 30, 2012**

<p><i>Institution's Response</i></p>	<p>Comparative Statement of Net Assets and Comparative Statement of Revenues, Expenses, and Changes in Net Assets</p> <p>a) There was an error in the formula that picked up the wrong line on the spreadsheet. It has been since corrected prior to the final exit on August 29, 2013. Documents have already been changed to reflect the correct number of years to amortize the loss on refunding prior to the final exit interview.</p> <p>b) The net effect on the restricted net assets was actually \$5,931. The fund balance will be reviewed by the Controller prior to October 31 of each year.</p> <p>Comparative Statement of Cash Flows</p> <p>Bond proceeds were not deposited in our construction fund checking account as it was in past bond issues, but were deposited to a construction fund with the trustee. Those funds were subsequently counted as cash instead of deposits with trustee. If and when bonds are sold again to finance the acquisition of capital projects, we will use a third party to review the cash flow statement.</p> <p>Notes to the Financial Statements</p> <p>a) The College will have the notes reviewed and proofread by the Controller and the Administrator of Grants and Contracts prior to October 31st of each year.</p> <p>b) The College will have the notes reviewed and proofread by the Controller and the Administrator of Grants and Contracts prior to October 31 of each year.</p> <p>c) The College will have the notes reviewed and proofread by the Controller prior to October 31 of each year.</p>
<p><i>Finding No: 2</i></p>	<p>Proper segregation of duties prevents fraud and misappropriation of assets and should be incorporated into security access assigned to users. Duties were not properly segregated in accounting roles within the Pulaski Technical College Business, Payroll, and Human Resources Offices, as users of the Poise System had excessive access to the Payroll module. System access assigned to these users provided enhanced opportunities to process and conceal unauthorized transactions, increasing the risk of misappropriated funds and fraudulent reporting.</p>
<p><i>Institution's Response</i></p>	<p>Henceforth, rate of pay will be set up and updated in POISE by Human Resources representatives. Payroll representatives will review the information entered and compare it with the written documentation provided for quality assurance purposes. Payroll will report to HR any questions or entry errors found. If corrections or</p>

--	---

<i>Finding No: 3</i>	The College had uninsured and uncollateralized deposits totaling \$1,300,484 at June 30, 2012.
<i>Institution's Response</i>	This happened because of a timing issue. The deposit was made after 4:00 pm on Friday, June 29, 2012 and it was not collateralized until Monday morning. The bank could not provide collateral during the weekend because it was closed for business. The deposits will be made earlier in the day if the last day of the fiscal year falls on a Friday.

**DIVISION OF LEGISLATIVE AUDIT
 AUDIT OF UNIVERSITY OF ARKANSAS COMMUNITY COLLEGE AT MORRILTON
 June 30, 2012**

<p><i>Finding No. : 1</i></p>	<p>University personnel discovered and audit staff verified that an individual donated a used vehicle to the University for use as an instructional aide in the Automotive Technology department. According to Bobby Duvall, automotive technology instructor, the vehicle was subsequently sold for \$500 and the proceeds used to purchase food for Automotive Club students. These funds were not deposited in the University's bank accounts.</p> <p>This matter is currently under investigation by the University Campus Police and the Fifth Judicial District Prosecuting Attorney.</p>
<p><i>Institution's Response:</i></p>	<p>It is important to note that campus policies were in place to properly handle/record the management finding referred to above at such occurrence. In this instance, campus policy/procedure was not followed by the instructor involved, thus constituting its inclusion as a management finding reported to DLA. Additional similar transactions were thoroughly reviewed and it was determined campus policy/procedure was followed. The instructor involved is no longer employed by UACCM. Additionally, more stringent policy revisions have been implemented to better guard against this in the future.</p>
