Independent Auditor's Report

Board of Directors Arkansas Health Insurance Marketplace Little Rock, Arkansas

Report on the Financial Statements

We have audited the accompanying financial statements of Arkansas Health Insurance Marketplace (the Organization) as of and for the year ended June 30, 2015, and related notes to the financial statements, which collectively comprise the Organization's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Directors Arkansas Health Insurance Marketplace Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Arkansas Health Insurance Marketplace as of June 30, 2015, and the changes in its financial position and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Organization's basic financial statements. The schedule of expenditures of federal awards, as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2016, on our consideration of the Organization's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Notes to Financial Statements June 30, 2015

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Reporting Entity

The Arkansas Health Insurance Marketplace (the Organization) was created to manage and implement a state-based health insurance exchange in Arkansas in accordance with state and federal law. The Organization is a nonprofit public benefit corporation established by the 89th Arkansas General Assembly, 2013 Regular Session by Act 1500 as a political subdivision, instrumentality and body politic of the State of Arkansas. The Organization is governed by an eight-member board of directors. The board consists of two members appointed by the Governor of Arkansas, three members appointed by the President Pro Tempore of the Arkansas Senate and three members appointed by the Speaker of the Arkansas House of Representatives.

In September 2014, the board voted to operate a state-run Small Business Health Options Program (SHOP) in 2015 for coverage beginning January 1, 2016. The board also voted to operate an individual market state-run health insurance exchange in 2016 for coverage beginning January 1, 2017.

Basis of Accounting and Presentation

The financial statements of the Organization have been prepared on the accrual basis of accounting, using the economic resources measurement focus. Revenues, expenses, gains, losses, assets and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from voluntary nonexchange transactions (principally federal grants) are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, voluntary nonexchange transactions. The Organization first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position is available.

The Organization prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB).

Risk Management

The Organization is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; employee injuries and illnesses; natural disasters; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. No claims have been filed since the Organization's inception.

Notes to Financial Statements June 30, 2015

Grants Receivable

Grants receivable at June 30, 2015, are due from the U.S. Department of Health and Human Services. These receivables are stated at the amounts to be collected from the grantor subsequent to the statement of net position date. Due to the nature of the grants receivable, the Organization does not consider an allowance for doubtful accounts necessary.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or fair value at the date of donation, if acquired by gift. Depreciation is computed using the straight-line method over the estimated useful life of each asset.

The following estimated useful lives are used by the Organization:

Equipment 5 years Furniture and fixtures 10 years

Property acquired with federal grant funds is considered to be owned by the Organization while used in the program for which it was purchased or in future authorized programs. In addition, the federal government has a reversionary interest in the property. The disposition of property purchased, as well as any proceeds therefrom, is subject to federal regulation.

Compensated Absences

Full-time employees of the Organization earn paid time off (PTO) benefits weekly on the basis of employee classification and length of service. The maximum PTO benefits accrual is capped at 240 hours annually, per employee. Subject to certain restrictions, Organization employees are compensated for unused PTO upon leaving the Organization's employment. PTO benefits are accrued when earned.

Net Position

Net position of the Organization is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of borrowings (if any) used to finance the purchase or construction of those assets. Restricted net position, if any, is net position that must be used for a particular purpose as specified by creditors or others external to the Organization. Unrestricted net position is remaining assets less remaining liabilities that do not meet the definitions of net investment in capital assets or restricted.

Notes to Financial Statements June 30, 2015

Note 2: Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Organization's financial policies do not address deposit custodial credit risk. At June 30, 2015, the Organization had bank deposits of \$1,299,053, of which \$1,049,053 was uninsured and uncollateralized.

Note 3: Capital Assets

Capital assets activity for the year ended June 30, 2015, was:

	_	nning ance	dditions and ansfers, Net	a Tran	ements nd sfers, let	Ending Balance
Capital assets, nondepreciable						
Website development and						
modifications in progress	\$		 563,925	\$		\$ 563,925
Total capital assets, nondepreciable			 563,925			563,925
Capital assets, depreciable						
Furniture and equipment			 77,460			 77,460
Total capital assets, depreciable			 77,460			77,460
Less accumulated depreciation						
Furniture and equipment			 8,023			 8,023
Total accumulated depreciation			 8,023			 8,023
Capital assets, net	\$		\$ 633,362	\$		\$ 633,362

Notes to Financial Statements June 30, 2015

Note 4: Operating Leases

Noncancellable operating leases for office space expire in 2019 subject to the availability of the Organization's federal grant funding. Future minimum lease payments at June 30, 2015, were:

2016	\$ 126,000
2017	126,000
2018	126,000
2019	 10,500
	\$ 388,500

Note 5: Commitments

The Organization has entered into various multi-year contract agreements relating to the development of the state-based health insurance exchange. At June 30, 2015, the Organization had approximately \$3,000,000 of commitments remaining under the contracts.

Note 6: Concentrations

Economic Dependency

The Organization is currently dependent on federal grant funding for its operational expenditures. The current grant award runs through December 31, 2017. If a material change in the level of support provided by the federal government occurs, such a change could have a material effect on the Organization's operations.

Information Technology Vendor

The Organization has contracted with and is dependent upon one information technology vendor to develop its core information technology systems including but not limited to the state-based exchange web portal and corresponding information technology infrastructure.

Schedule of Expenditures of Federal Awards Year Ended June 30, 2015

Cluster/Program	Federal Agency/ Pass-Through Entity	CFDA Number	Amount
State Planning and Establishment Grants			
for the Affordable Care Act (ACA)'s	Department of Health and		
Exchanges	Human Services	93.525	\$ 2,528,039
			\$ 2,528,039

Notes to Schedule

- 1. This schedule includes the federal awards activity of Arkansas Health Insurance Marketplace and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.
- 2. Arkansas Health Insurance Marketplace provided no federal awards to subrecipients.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards

Board of Directors Arkansas Health Insurance Marketplace Little Rock, Arkansas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Arkansas Health Insurance Marketplace (the Organization) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Organization's basic financial statements and have issued our report thereon dated March 31, 2016.

Internal Control over Financial Reporting

Management of the Organization is responsible for establishing and maintaining effective internal control over financial reporting (internal control). In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses as defined above. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BKD, LUP

Little Rock, Arkansas March 31, 2016

Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance

Independent Auditor's Report

Board of Directors Arkansas Health Insurance Marketplace Little Rock, Arkansas

Report on Compliance for Each Major Federal Program

We have audited the compliance of Arkansas Health Insurance Marketplace (the Organization) with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended June 30, 2015. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Organization's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the Organization's major federal program. However, our audit does not provide a legal determination of the Organization's compliance.

Opinion on Major Federal Program

In our opinion, Arkansas Health Insurance Marketplace complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Arkansas Health Insurance Marketplace is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Organization's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
