Firearms and Range Safety Rules

The objective of firearms training is to develop safe and competent firearm handlers. It is the concealed carry handler's responsibility to conduct themselves in a mature manner and use common sense when handling firearms.

A safety briefing should always be conducted *prior* to training or use of range.

Cardinal Rules For Firearms Safety

1. Treat all firearms as though they are loaded.
2. Keep your finger off the trigger until you are ready to engage the target.
3. Point the muzzle in a safe direction at all times.
4. Be aware of your target and what is beyond it.

**Everyone on the range is a safety officer.
If anyone observes an unsafe act, a cease
fire and STOP ALL ACTION should be
conducted immediately.**

Live Fire (Fundamentals)

(cont'd)

- All shooting is from the “ready position” – firearm already drawn from the holster and ready to fire.
- The shooter must clear or work through any malfunction.
- The shooter should reload when necessary.
- Only exercises are timed. Reloads and time between exercises are not timed and do not count against the shooter’s score.
- If rounds are held (not fired within the allotted time) they will be counted as misses.

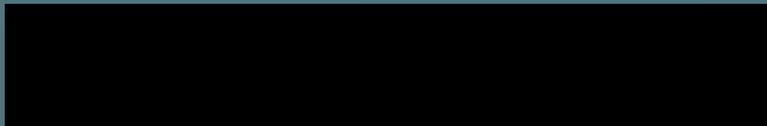

Range: Qualification (1.5 Hours)

- Each student will fire 50 rounds from various predetermined distances in order to show proficiency. This course of fire will be scored at a 70 percent success rate (35 of 50) in order to meet a minimum standard. The target utilized will be a B-27 target. The shooter will be scored hit or miss. A successful hit will be scored if the round fired cuts the line of the 7 ring or is within the 7 ring of the B-27 target.
- Example: If a shooter places 42 rounds fired from his or her weapon in the time allotted on or within the 7 ring of a B-27 target the score would be 42 of 50.
