**Information Technology Section:** The Information Technology Section supports approximately 1,300 desktops and laptop computers and peripheral devices along with 20 servers. On the average, the Information Technology Section addresses 25-plus support calls per day while providing support on a 24-hour, seven-days-a-week basis to sworn and non-sworn personnel. The Information Technology Section is responsible for all database management; server configuration/management, IT specifications/purchases; wireless connectivity in the trooper's unit; wireless connectivity at troops, VPN, SSL licensing, LAN management; application software licensing/renewals; data security; operating systems/updates; software suites and specialized applications; headquarters phone system management; antivirus protection; network utilization; dedicated circuit management, management of switches, routers and firewalls; CAT5 and CAT6 wiring, end user system configurations, and special interfaces with non-Arkansas State Police systems.

Some of the larger projects the Information Technology Section supports are: Traffic and Criminal Software (TraCS), Automated Fingerprint Identification System (AFIS); Commercial Driver's Licensing (CDL) and the Arkansas State Fusion Center. The Section is responsible for the training, deployment, updates and on-going support of TraCS on a 24-hour, seven-days-a-week basis which includes all highway patrol enforcement personnel. The Section also provides support for AFIS on a 24-hour, seven-days-a-week basis and provides support to CDL operations throughout the State. In addition, the IT section is the primary IT support for the Arkansas State Fusion Center.

**Highway Safety Office:** The Highway Safety Office administers state and federal highway safety funds and oversees highway safety program efforts supported by these funds for the State of Arkansas. The Highway Safety Office develops an annual highway safety plan, which identifies traffic-related safety problems in Arkansas and recommends programs most effective in reducing traffic fatalities, injuries and crashes. A performance plan was prepared which describes the state's highway safety problem identification process and identifies the State's highway safety benchmarks and goals. The highway safety plan describes the strategies for meeting the goals outlined in the performance plan and allocation of highway safety funds.

The Highway Safety Office implemented projects and facilitated activities and programs which contributed toward reaching the State's goal. The Office recognizes that the achievement of quantified goals is dependant not only on the work of its office, but also on the collaborative and ongoing efforts of a multitude of governmental and private entities involved in improving highway safety in Arkansas. Below is a list of the grant agreements and contracts funded during fiscal year 2008.

**Legal Counsel:** Legal Counsel provides legal advice to the Director and Deputy Director, as well as the Division's Troop and Company Commanders. Counsel is consulted on Internal Affairs Investigations and presents all disciplinary cases which are appealed to the Arkansas State Police Commission. Counsel reviews all legal pleadings, including complaints in which the Department or its personnel are sued, and determines if representation from the Arkansas Attorney General's

Office is needed. Counsel represents the Department before the Arkansas State Claims Commission and is the liaison between the Department and the Arkansas Attorney General's Office for cases pending in state and federal court. Counsel also reviews contracts and Memorandums of Understanding in which the Department is a party and drafts and reviews legislative bills.

Ken Stoll served as Legal Counsel during 2008.

#### Special Operations Section:

- ❖ **Marijuana Eradication Program:** The Marijuana Eradication Program is grant funded and designed to curb marijuana growth and usage in Arkansas. The program made a total of 32 arrests; seized 10 weapons and \$10,000 in cash assets; flew 400 helicopter hours with the Arkansas National Guard and 46 helicopter hours with the Arkansas State Police over 29 counties; and received 46,030 plants that were turned in by counties, special operations, and commercial contractors.
- ❖ **Special Weapons and Tactics (SWAT):** SWAT consists of a group of highly motivated officers from various sections within the department. These individuals are involved in a minimum of 160 additional training hours per year geared toward specific threats. While the majority of the Arkansas State Police SWAT callouts are hostage/barricaded situations, the officers are trained in various less-lethal methods, high-risk vehicle assaults, linear (bus/airplane) assaults, and commercial and residential entry techniques. Team members are readily able to complete any mission set before them by the department, and they are willing

to assist any federal, state, county, or local department that requests help. The team members are dispersed across the state which allows for immediate response to tactical situations by several members, while the remaining team members respond to the location. Many team members are instructor certified and help with training at the troop level and with the training of new recruits. In 2008, SWAT was activated three times and was placed on stand-by status during three different situations. One situation involved a federal fugitive who shot a Trooper in Virginia, another situation involved a barricaded suspect who fired on local officers and a third situation involved a federal / state multi-agency search and seizure warrant. The team also provided two demonstrations involving explosive breaching methods.

- ❖ **Crisis Negotiation Team:** The Crisis Negotiations Team (CNT) responds every time SWAT is activated. The CNT is comprised of three teams that are assigned to one of three regions of the State. When activated, a 6 member team is dispatched while the other teams are placed on stand-by status in case the call becomes protracted. The CNT's primary mission is to resolve critical situations through communications. Each team member is required to complete two separate weeks of specialized training provided by the FBI. CNT members are also required to attend two days training on a bi-monthly basis.

**Bomb/Arson Unit:** The Bomb/Arson Unit responded to 79 incidents. These incidents included the following:

- ❖ Rendered safe 20 Improvised Explosive Devices (IED's).
- ❖ Responded to 21 suspicious packages which turned out not to be IED's.
- ❖ Investigated 2 fatal fires that were determined to be arson.
- ❖ Assisted in the execution of 2 search warrants.
- ❖ Responded to 2 SWAT calls.
- ❖ Responded to 16 requests to investigate illegally stored explosives. The squad recovered and destroyed the following illegal explosive materials:
  - 102 – Electric blasting caps
  - 114 – Non-electric blasting caps
  - 162 lbs. of high explosives
  - 1,230 feet of high explosive detonating cord

**Internet Crimes Against Children Section:** The Internet Crimes Against Children Section is a grant funded task force implemented to overtly and covertly investigate internet crimes against children, as well as provide computer forensic assistance to aggressively prosecute such crimes, and public education to help prevent internet crimes against children. Additionally, the Task Force provides proactive tools, resources, and information to educate parents, teachers, and children about Internet safety and victimization prevention.

**Hot Line Section** – Operates 24-hours a day, 7-days a week – is authorized one (1) administrator, four (4) supervisors and twenty-eight (28) operators. This section operated with an average of 24 operators during the year.

	2004	2005	2006	2007	2008
<span style="color: blue;">■</span> Calls Received	34,775	45,167	47,674	50,301	51,592
<span style="color: maroon;">■</span> Accepted Reports	22,192	25,587	27,298	29,218	29,991

**Investigations:** The allegations accepted by the Hot Line are divided into categories for investigation, pursuant to an agreement with DHS. This resulted in 6,406 cases being assigned by the Hot Line to investigators in the CACD’s Investigation Section in 2008.

Of the 6,406 cases that were accepted by the Hot Line for investigation by the CACD in 2008, 5,796 were Priority I reports and 610 Priority II reports. (Cases often have more than one allegation to address during the investigation. Priority I cases are the most serious allegations and less serious allegations are labeled as Priority II cases.)

The types and number of Priority I allegations were:

❖ Abandonment – 26	❖ Juvenile aggressor - 43
❖ Abuse w/a deadly weapon – 184	❖ Malnutrition – 2
❖ Bone fracture – 117	❖ Med. neg. of Dis. Infant - 2
❖ Brain damage/skull fracture – 20	❖ Oral sex – 581
❖ Burns/scalding – 213	❖ Poison/noxious substance – 116
❖ Cuts, bruises, welts – 127	❖ Pornography – 239
❖ Death – 15	❖ Sexual contact – 3,144
❖ Failure to protect – 355	❖ Sexual exploitation – 257
❖ Failure to thrive – 5	❖ Sexual penetration – 1,999
❖ Immersion – 12	❖ Subdural hematoma – 23
❖ Indecent exposure – 293	❖ Suffocation – 321
❖ Internal injuries – 6	❖ Threat of harm – 74

Of the total number of Priority I allegations, 6,513, (80%) involved sexual abuse, indecent exposure and pornography.

CACD investigators closed 6,251 cases in 2008. Of the closed cases, 2,576 (41%) were found to be 'true'.

The finding of 'true' means there was a preponderance of evidence that indicated the allegation(s) was true. An 'unsubstantiated' finding means the evidence was insufficient to support the allegation(s). Investigations closed with a finding of 'true' were forwarded to the appropriate prosecuting attorney.

The Investigation Section is authorized 63 civilian Investigator positions, nine Area Supervisors and one overall Administrator. This Section operated with an average of 60 investigators during the year.

**Performance Indicators:** The CACD is evaluated on eight performance indicators of compliance with Angela R. requirements, which were spelled out in a consent decree in the 1990s during federal court proceedings. They also are a part of an agreement between CACD and DHS.

The indicators are:

1. The alleged victim(s) in Priority I reports are seen by the Investigator within 24 hours.
2. The alleged victim(s) in Priority II reports are seen by the Investigator within 72 hours.
3. All children in the home are seen during the investigation.
4. The alleged victim(s) are interviewed (or observed) outside the presence of the alleged offender.
5. Parents/caretakers are interviewed in all investigations.
6. Investigations are concluded within 30 days of receipt of the allegation.

By contract with DHS, CACD is required to meet a minimum of 85% compliance in each performance indicator. The following chart shows the average compliance for the year 2008. The line numbers above are used as identifiers.
