1. Executive Summary

The goal of this *Research/Alternatives Analysis report #4 – AR In-Person Assister (IPA) Entity Application* is to provide options for consideration by the Consumer Assistance Advisory Committee (CAAC) to develop requirements for inclusion in the IPA Entity Application, IPA Entity Application Renewal, or denial of an IPA Entity Application. The Committee's recommendations to the Steering Committee must ensure compliance with Federal regulations and instill public trust in the process.

In previous months, the Committee has defined program principles and goals, certification requirements for individual in-person assisters, and training requirements. The major focus of these discussions revolved around the individual IPAs – those who will be meeting directly with Arkansas consumers. Arkansas IPA Entities will also play a central role in effectively administering the program. IPA Entities will assist in the identification of the uninsured, underinsured, and underserved, provide outreach and education about the Federally Facilitated Exchange (FFE), facilitate enrollment in qualified health plans, and provide a positive impact on the quality of care.

In order to qualify IPA Entities must meet Entity Application requirements set out by the state. These requirements must ensure:

- Compliance with all Federal regulations;
- Individual IPAs are trusted sources and will provide reliable and accurate information to consumers.

The IPA Entity Application process described in this report relates to **Arkansas IPA Entities**. The IPA Entities will have a relationship with – either by way of contract or employment – individual IPAs and will be the recipients of Arkansas IPA payments (methodology still to be decided). IPA Entities will be required to ensure that individual IPAs under their direction are certified in accordance with state certification requirements and have at least one certified individual IPA on staff.

There are three main questions for the Committee's consideration this month:

Consumer Assistance Advisory Committee – Goals for August 2012

The Consumer Assistance Advisory Committee will develop recommendations to the FFE Partnership Steering Committee on the following topics:

1. The appropriate Entity Application requirements;
2. The appropriate Entity Renewal requirements; and,
3. The appropriate Entity Denial requirements.

There are no specific Federal Entity Application requirements, nor has any other state set a precedent for what Entity Application requirements should be included in the FFE Partnership model. This report provides options for the Committee's consideration based on the broad Federal requirements and previous discussions with the Advisory Committee.

For the purposes of developing recommendations, the IPA Entity Application discussion will be divided into five (5) categories:

1. A description of the IPA Entity's program to provide outreach and education and ensure individual IPAs under their direction be certified, well informed and provide fair and impartial information about insurance carriers and qualified health plans;
2. Financial considerations for an IPA entity to participate;
3. Attestations from the IPA Entity that they and the individual IPAs will comply with all Federal and state requirements;
4. Requirements for IPA Entity Application Renewals
5. Requirements for IPA Entity Application Denials

2. Federal Guidance on the Arkansas IPA Program

2.1 ACA Requirements

In order to qualify as an IPA Entity the organization (or individual) must comply with Application requirements set out by the state, including the following:

- Ensuring compliance with all Federal regulations;
- Ensuring that appropriate services are delivered to the consumers in the State of Arkansas; and,
- Assuring Arkansas consumers that individual IPAs are trusted sources and will provide reliable, accurate information to consumers in the areas they serve.

The ACA provides little in the way of specific guidance, but does provide broad guidance. The Entity Application must reflect a commitment and compliance with ACA regulations in §155.210 and §155.220. These ACA regulations, which are the same establishing regulations reviewed in past months, are provided in the appendices section of this document, but they do not provide specific guidance for consideration. Entity Application standards, then, rest upon the State of Arkansas and what it considers to be appropriate.¹

¹ Regulations are provided at the end of this document in the form of links to the Federal language specifically and summarized at the end of this document as Appendix A and B.

3. Considerations for the Committee

3.1a – Defining Arkansas IPA Entity Application Requirements

The decision before the Consumer Assistance Advisory Committee is to recommend IPA Entity Application requirements for the selection of organizations to serve Arkansas consumers and support the principles recommended to the FFE Partnership Steering Committee from the first meeting of the CAAC.² The following list of IPA Entity Application requirements is intended to begin the Committee's discussion around this decision point.

Recommended Entity Application Requirements:

Are there other requirements that should be considered?

3.1b – Application Scoring

In order to ensure that IPA Entities are chosen that will best serve Arkansas' consumers, a scoring system will be developed to score the applications.

- What components of the application does the committee feel should be weighted most heavily?
 - a) Organizational history;
 - b) Relationship with targeted enrollees;
 - c) Organizational capacity to carry out the duties required by Federal and state requirements;
 - d) Plan for outreach, education, and enrollment facilitation and the likelihood of success in reaching and facilitating enrollment for the population the entity intends to serve;
 - e) Financial solvency of the entity;
 - f) Budget;
 - g) Plan for availability to consumers;
 - h) Ability to track and report activities performed to the state;
 - i) References;
 - j) Commitment to all attestations;
 - k) Ability to track and resolve complaints.

3.1c – Recommended Entity Application Renewal Requirements:

Federal requirements leave the frequency of IPA Entity Application renewal up to each state. In Arkansas, applications occur on an annual basis and accepted entity applications will result in a

contract with the state. Each contract will be for a one year period with the option for two (2) one year renewals. Renewals will include at a minimum the following:

- a) Budget reconciliation from the previous year, if the entity had a contract the prior year;
- b) Documentation that the IPA Entity met the goals of the IPA program
- c) Reaffirmation of the attestations required for initial certification;
- d) Changes to any elements provided in the initial application process;

- g) A review of the services, reporting, and performance improvement provided during the previous year and the performance of the entity during that time; and,
- h) A review of complaints, the disposition of the complaints, and their resolutions.

Are there other requirements that should be considered?

3.1d - Considerations for Denial of the Entity's Application:

The following list includes examples of what might warrant a denial of an Entity's Application, termination, or denial of an Entity Application:

- a) A minimum rating has not been achieved.
- b) Misuse of funds,
- c) Failure to perform the duties of the IPA entity,
- d) A more qualified entity proposing to serve the same population was selected,
- e) Another entity was selected based on costs,
- f) IPA Entity does not meet specific quality and other standards,
- g) IPA Entity demonstrates conduct that the entity is not operating within professionally-accepted ethical standards,

- h) There has been a change in status of any of the attestations that result in the IPA Entity not meeting requirements for participation, or,
- i) Consumer complaints about the IPA Entity that were not resolved or corrected.

Are there other requirements that should be considered?

3.1 e – Definition of terms

Conflict of Interest and Professionally Ethical Standards definitions will be consistent with definitions identified for individual IPAs:

1. **DEFINITION OF “CONFLICT OF INTEREST”:** Any private or personal interest sufficient to influence or appear to influence the objective exercise of the entity’s official or professional responsibilities.
2. **DEFINITION OF “PROFESSIONALLY ACCEPTED ETHICAL STANDARDS”**
 - a) The IPA Entity and employed, volunteer, or contracted individual IPAs will treat each consumer with respect, acceptance and dignity;
 - b) The IPA Entity and employed, volunteer, or contracted individual IPAs will not knowingly misrepresent applicant eligibility information;
 - c) The IPA Entity and employed, volunteer, or contracted individual IPAs will not knowingly misrepresent their capability to act as IPA, nor fail to comply with certification standards;
 - i. The IPA Entity and employed, volunteer, or contracted individual IPAs will not provide advice to a consumer that identifies in which QHP or program the consumer should enroll. IPAs will discuss the options available and provide impartial information about the distinctions among plans, and only consumers will make decisions regarding in which plan or program to enroll.

- d) The IPA Entity and employed, volunteer, or contracted individual IPAs will protect the consumer's right to privacy and confidentiality regarding health and immigration status;
- e) The IPA Entity and employed, volunteer, or contracted individual IPAs will protect the integrity, safety, and security of consumer records in compliance with all state and Federal laws;

- g) The IPA Entity and employed, volunteer, or contracted individual IPAs will respect individuals and groups, their cultures and beliefs; and
- h) The IPA Entity and employed, volunteer, or contracted individual IPA wills act with integrity, honesty, genuineness, and objectivity.

3.2 Other State Strategies:

PCG reviewed other states and found no information that any other states have made public that have defined their Entity Application/licensing requirements only that other states have plans to do so.
