Community Improvement Grants

Arkansas Economic Development Commission, Division of Rural Services

Rural Services Block Grant - The Rural Services Block Grant Program is funded through the U.S. Department of Housing and Urban Development (HUD) Small Cities Community Development Block Grant Program and administered for the State and our agency by the Arkansas Economic Development Commission Grants Division. This grant is eligible to communities of less than 3,000 in population with at least a 51% Low to Moderate income range. The maximum award is \$75,000 with a 10% match. Eligible projects include: new construction or renovation of community centers or multi-purpose use buildings for the betterment of the community, new construction or renovation of fire stations, the purchase of fire trucks, and specialized life-saving equipment such as “jaws of life” and protective clothing worn by fire fighters.

Rural Community Grant Program- Through the Arkansas Rural Community Grant Program (RCGP), the Arkansas Rural Development Commission and the Division of Rural Services strive to enhance quality of life in the state by providing incentive grants on a matching basis. The Rural Community Grant Program can assist with the improvement of local fire protection, including related emergency services and construction, along with the development and improvement of community facilities. This grant program funds projects for communities with a population less than 3,000. The maximum award is \$15,000 with 50% match.

For more information about these grant programs, visit www.RuralServices.Arkansas.gov for an application or contact 1-888-RURAL-AR.

Arkansas Historic Preservation Program

Certified Local Government Grants - City and county governments in Arkansas that participate in the AHPP's Certified Local Government (CLG) program are eligible for pass-through grants from the federal Historic Preservation Fund. AHPP must sub-grant at least 10% of its annual federal appropriation to CLGs each year. (CLG grants can also be used to assist local governments seeking to join the program.) CLG pass-through grants can be used for a variety of local historic preservation projects, including architectural surveys of historic sites or districts, preparation of nominations for the National Register of Historic Places, development of educational materials for historic property owners, and rehabilitation of local historic structures. CLG grants are often used to provide training and support to local historic district commissions.

County Courthouse Restoration Grants - The AHPP's County Courthouse Restoration Sub-grants have been used to help restore historic county courthouses in 61 of the state's 75 counties since they were created in 1989, helping to extend the lives of structures that hold vital links to community pride and local history. Participating counties donate facade easements on their historic county courthouses in return for financial assistance in rehabilitating the buildings. Grant funds come primarily from the Real Estate Transfer Tax, administered by the Arkansas Natural and Cultural Resources Council. Total amounts available to be shared among applicants annually have ranged from \$150,000 to \$1,000,000.

Historic Preservation Restoration Grants - Three Historic Preservation Restoration Grant options are available:

- **Option 1:** Grants of up to \$10,000 are available to the owners of properties that are 1) listed on the Arkansas Register of Historic Places and/or 2) identified as a non-contributing structure in a National Register District; if the grant project will make the property eligible for listing on the National Register of Historic Places and the owner follows through with the National Register listing process.
- **Option 2:** Grants at a minimum of \$10,000 are available to the owners of properties that meet all of the following criteria: (a) listed on the National Register of Historic Places, and (b) owned by a not-for-profit organization or a municipality. No Option 2 grants will be made to individuals. Preference will be given to projects that are not eligible for other AHPP grant programs.
- **Option 3:** Grants of \$5,000 to \$9,999 are available to fund restoration projects for cemeteries listed on the National Register of Historic Places. Option 3 grants are available to non-profit organizations (501 (c) 3) and units of local government. If the cemetery is owned by any other entity, the grant may be submitted and administered by an eligible non-profit or unit of local government on behalf of the cemetery. Preference will be given to projects that are not eligible for other AHPP grants.

For more information, contact the Arkansas Historic Preservation Program at (501)324-9880 or visit the AHPP website at www.arkansaspreservation.com.

Arkansas Department of Parks and Tourism

50/50 Grant - The 50/50 Matching Grant Program is a reimbursable grant program. This means that the grantee will be reimbursed for half of the amount of the project cost up to the grant amount. The grantee must finance 100% of the cost of the project, which can include in-kind labor, land donations, contributions and general appropriations. The purpose of the Matching Grant Program is to build outdoor recreation facilities. Enclosed facilities cannot be constructed within the area described by the park boundary map, except as support to an outdoor facility (i.e., rest rooms or concession stands). Pavilions cannot have sides that give the effect of a closed-in building, nor can facilities constructed with LWCF or NCRGTF monies be enclosed at a later date. Website: <http://www.outdoorgrants.com/Matching%20Grants/>

Fun Park Grant - The FUN Park Grant Program is designed to assist small incorporated cities with populations of 2,500 or less and unincorporated rural communities, sponsored by their county, to develop their first basic neighborhood park or make fundamental improvements to an existing park to provide basic recreation facilities. A \$45,000 FUN Park Grant will likely challenge the grantee's ability to stretch funds and use local resources to complete the project within the grant amount. Local funds and contributions, such as site preparations and volunteer labor, may be required to complete the park. Only ten FUN Park Grants may be funded annually. No match required. Website: <http://www.outdoorgrants.com/Park%20Grants/>

Trails for Life Grant - The purpose of the Trails for Life Grant Program is to provide an incentive to Arkansans to develop facilities in local neighborhoods and parks and by encouraging active healthy life-styles including vigorous exercise as a part of a regular routine. Act 1750 of 2001 established The Arkansas Trails for Life Grant Program which uses funds made available to the Arkansas Department of Health through the Tobacco Settlement Proceeds Act. No match required. Website: <http://www.outdoorgrants.com>

Communities Unlimited, Inc.

Water and Wastewater Loans - CU offers various types of loans - with terms up to 10 years - for small, rural community water/wastewater projects. These loans enable rural communities to make the necessary repairs and improvements needed to maintain an uninterrupted supply of safe drinking water for their customers. CU's technical assistance providers serve as liaisons between CU and the communities and assist them in finding funds for their projects from CU's various loan funds.

CU also manages the **Revolving Loan Fund (RLF)** for the Rural Community Assistance Partnership (RCAP). Each year the six national RCAP partner organizations provide technical and loan assistance to more than 2500 small, rural community water and wastewater systems nationwide.
